Vol. 155

WASHINGTON, MONDAY, FEBRUARY 23, 2009

No. 31—BOOK II

House of Representatives

DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2009

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Appropriation enacted, 2008	\$853,931,000
Budget estimate	864,827,000
Bill, 2009	890,194,000

Comparisons:

Appropriations, 2008	+36,263,000
Budget estimate, 2009	+25,367,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Land Resources. Within the funds provided for soil, water, and air management, there is a program increase of \$7,500,000 for abandoned mine remediation and inventory in the West. Of this amount, a minimum of \$6,000,000 is for actions to secure, seal, and remediate hazards from known mine openings. An amount up to \$1,500,000 may be used for discovery and inventory activities.

Cultural Resources Management. Within the amounts provided, there is an increase of \$500,000 to begin implementation of the Galisteo Basin Archeological Sites Protection Act of 2004 (NM).

Wildlife Management. Within the funds provided there is an additional \$4,600,000 for the native plant materials development program. This funding and program has been moved out of the Department's wildland fire management appropriation account. This program should continue previous activities as part of the national fire plan working closely with the Forest Service, and develop a seed bank of desirable native plant species to be available for use in burned area restoration, habitat restoration, and other related purposes by all of the Interior land management bureaus. An annual report on the accomplishments and expenditures of the

program should be submitted no later than 90 days after the end of the fiscal year.

Recreation Resources Management. Within the amounts provided, there is an increase of \$1,000,000 for management of the national scenic and historic trails.

Energy and Minerals. The bill continues the same application for permits to drill (APD) fee as in fiscal year 2008, \$4,000 per APD, which is estimated to net \$36,400,000 during fiscal year 2009 to partially offset BLM administrative costs. In addition, the bill includes \$6,000,000 for Alaska legacy well remediation, no specific funds for gas hydrates research or North Slope science, and \$1,000,000 for oil shale sample shipment and storage in Colorado. The discretionary funding total for oil and gas management is \$79,478,000, which when added to the APD fee receipts, and the off-budget pilot offices funds, is a small increase over the total fiscal year 2008 oil and gas management funding.

Future budget justifications should clearly delineate how the Bureau is complying with section 713 of the Energy Independence and Security Act of 2007 dealing with inventories of carbon dioxide sequestration in Federal mineral leaseholds.

Realty Ownership and Management. Within the funds provided, there is an increase of \$750,000 for GIS/cadastral mapping in Utah.

Resource Protection and Law Enforcement. Within the amounts provided, there is an increase of \$5,100,000 for drug enforcement on public lands.

Hazardous Materials Management. Within the amounts provided, there is an increase of \$1,000,000 for activities related to southwest border problems.

Challenge Cost Share. The Bureau should not set aside a specific allocation for the National Landscape Conservation System as was proposed in the budget request.

National Monuments and Conservation Areas. The bill includes the various funding transfers proposed by the Bureau, and an increase of \$6,371,000 above the request, for a total of \$28,196,000 for the new National Monuments and Conservation Areas activity. Additional National Landscape Conservation System

funding is included in the wilderness and recreation activities in this account, and in the Oregon and California Grant Lands account.

Healthy Lands Initiative. Within the amounts provided there is a total of \$7,797,000 for the Healthy Lands Initiative, including \$750,000 in soil, water and air management, \$2,586,000 in rangeland management, \$150,000 in forestry management, \$867,000 in riparian management, \$2,602,000 in wildlife management, \$292,000 in fisheries management, and \$550,000 in the threatened and endangered species activity.

National Fish and Wildlife Foundation. The bill includes \$3,000,000 to continue cost share activities as in the past, including \$1,917,000 in wildlife management, \$246,000 in fisheries management, \$246,000 in threatened and endangered species, \$345,000 in rangeland management, and \$246,000 in riparian management.

Other. The Bureau should retain its current level of support for the National Conservation Training Center; funds should be made available to the Center within 60 days of enactment.

The detailed allocation of funding by program area and activity for the National Park Service account is included in the table at the end of this section of the statement. The amounts in this bill will support 20,923 full

time equivalent (FTE) positions throughout the National Park Service, an increase of 622 FTE's over the number funded in 2008. This includes continuation of funding for the 3,000 new seasonal positions added in fiscal year 2008. Savings in personnel and contracting costs of \$9,855,000 compared to the request have been realized due to delayed enactment of the 2009 appropriations. In addition, the bill includes the following specific funding levels and directions:

Visitor Services. Within the amounts provided for visitor services, the bill assumes an increase of \$3,300,000 above the amounts requested in the President's budget for the National Park Service portion of an expanded law enforcement effort to eradicate drug production and related activities on public lands.

Park Support. The bill assumes funding of \$11,000,000 for the National Trail System, and \$1,750,000 for the Wild and Scenic Rivers program.

U.S. Park Police. The \$96,555,000 provided in the bill for the U.S. Park Police annual operations budget includes sufficient funding for two additional recruit classes during 2009. In addition the bill includes the \$2,000,000 for security costs associated with the 2009 Presidential Inauguration.

Gettysburg National Military Park (NMP). \$200,000 is provided to continue the restoration of historic battlefield landscaping at Gettysburg NMP.

National Mall Concerts. The bill includes funding to continue support for the National Mall concerts program at the fiscal year 2008 level.

Youth Conservation Corps (YCC) and Public Lands Corps (PLC). The bill includes not less than \$3,000,000 of funding in this account for projects to be carried out by the YCC program and not less than \$3,000,000 for projects carried out by the PLC. The Committees on Appropriations are fully supportive of these partnership programs, as well as similar partnership arrangements with the Student Conservation Association, and encourages expansion of these programs in 2009.

Special Resource Studies. The bill includes sufficient funding to carry out all special resource studies authorized by law during the 110th and previous Congresses.

Harpers Ferry NHP. The Committees on Appropriations appreciate the Service's efforts to commemorate the 150th anniversary of John Brown's raid on the arsenal at Harpers Ferry National Historical Park, and authorize the use of up to \$300,000 to defray the costs of the extensive events that will surround the anniversary.

Traditional and Folk Arts Heritage Programs. The bill includes funding to continue National Park Service support of traditional and folk arts programs at parks whose mission includes preservation of these heritage traditions. The Committees are fully supportive of this important partnership program and encourage the National Park Service to expand its support of these programs in fiscal year 2009.

Haleakala National Park. The Committees on Appropriations are aware and supportive of the potential development of an Advanced Technology Solar Telescope (ATST) within the Haleakala High Altitude Observatories site at the summit of Haleakala, Maui, Hawaii. As the proposed ATST construction site can only be accessed via a road through the Haleakala National Park, the Service is expected to work cooperatively with the National Science Foundation to effectuate the issuance of a Special Use Permit as soon as possible. In turn, the Foundation is expected to complete its analysis on the effects to service standards in a timely fashion so that the Service can fully comply with all procedural requirements, with a goal of completing the permitting process within 150 days of enactment of this Act.

NATIONAL RECREATION AND PRESERVATION

Appropriation enacted, 2008	\$67,413,000
Budget estimate, 2009	45,488,000
Bill, 2009	59,684,000
Comparisons:	
Appropriations, 2008	-7,729,000
Budget estimate, 2009	+14,196,000

The detailed allocation of funding by program area and activity for the National Recreation and Preservation account is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

Cultural Programs. The bill includes \$1,000,000 to initiate programmatic activities under the Japanese-American Confinement Sites Act (P.L. 109-441). The bill does not include \$1,000,000 requested to begin an inventory of historic properties requested in the President's budget.

Heritage Partnerships Program. The bill includes \$15,702,000 for the heritage partnerships program. This amount will fund all heritage partnerships authorized during the 110th Congress. Partnerships which received funding in fiscal year 2008 will be funded at the same level as they received last year. In addition, the bill provides \$148,000 of planning funds for each of three newly authorized heritage partnerships. The House and Senate Committees on Appropriations are concerned that the number of authorized heritage partnership programs has expanded rapidly in recent years and many more proposals are pending action by the authorizing committees. The Committees are in agreement that the amount of funding available for this program is limited; and that expanded funding for new heritage areas should be funded principally by savings which occur when mature programs are graduated from Federal support. The National Park Service is directed to develop new guidelines for this program which require self-sufficiency plans for all heritage areas within a reasonable period of time. The adoption of a credible self-sufficiency plan, or satisfactory work towards development of such a plan, should be a condition of continued funding for all plans after fiscal year 2009.

Statutory and Contractual Aid. The bill includes \$5,600,000 for grants under the statutory and contractual aid program as follows:

State	Project description	Amount
AL	National Voting Rights Interpretive Center	\$350,000

Fund, offset by rescission of \$516,000 of prior year unobligated funding within this account. The detailed allocation of funding by program area and activity is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

Program Reductions. The bill does not include \$10,000,000 requested in this account for the Preserve America program or \$2,000,000 requested to initiate an inventory of historic

properties. The Committees on Appropriations believe that future funding for the Preserve America program should be deferred pending a full evaluation of the effectiveness of the program in meeting national heritage tourism needs.

Save America's Treasures. The bill includes \$20,000,000 for the Save America's Treasures program and allocates \$10,000,000 of this amount to the following projects:

Everglades. The bill includes \$60,000,000 for the Modified Water Deliveries Project at Everglades National Park. This includes \$50,000,000 requested in the President's Budget for the Corps of Engineers. This funding level will allow construction of the first Tamiami Trail bridge to proceed expeditiously. The House and Senate Committees on Appropriations recognize, however, that this bridge is just a first step. As the next step in this critical restoration effort, the Secretary of the Interior, acting through the National Park Service, is directed to immediately evaluate the feasibility of additional

bridge length, including a continuous bridge, or additional bridges or some combination thereof, for the Tamiami Trail (U.S. Highway 41) to restore more natural water flow to Everglades National Park and Florida Bay. The feasibility study and the recommendation of the Secretary should be submitted to the Congress no later than 12 months from the date of enactment of this Act. Language is included in the bill directing that this study be completed.

The second new proviso extends the authorization for the National Park Service Advisory Board for one year.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriation enacted, 2008	\$1,006,480,000
Budget estimate	968,516,000
Bill, 2009	1,043,803,000
Comparisons:	
Appropriations, 2008	+37,323,000
Budget estimate, 2009	+75,287,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. The bill includes the proposed global change research technical adjustments which move funds from several activities into the global change activity. The proposed reductions for travel are not included

for any activity. In addition, the bill also includes the following specific funding levels and directions:

Geographic Research and Remote Sensing. The bill includes \$1,000,000 for the national cooperative geographic information system mapping program but does not include the funding increase requested for the national land imaging program. The bill includes the requested reduction for geographic research and the transfer of priority ecosystems science funding to biological research. The bill fully funds the budget request of \$24,150,000 for the Landsat Data Continuity Mission and \$16,000,000 to continue the Landsat 5/7 program. Satellite development and launch costs associated with future US Geological Survey (USGS) land remote sensing operations should not be transferred from the National Aeronautics and Space Administration (NASA) to the Department of the Interior (DOI). These are functions that are not a component of current DOI operations but clearly fall within NASA's jurisdiction. Until a new plan for future land imaging and remote sensing coordination is drawn up that evaluates how satellite development, launch and operations should be funded, DOI should not undertake any action that attempts to assume the funding responsibilities that have traditionally been a part of the NASA budget.

Geologic Hazards Assessments. The bill includes \$3,000,000 for the earthquakes portion of the multi-hazards initiative and \$500,000 for the one-time costs of seismological equipment at the Arkansas Seismological Observatory, but the requested reduction for earthquake grants is not included. There is a general increase of \$2,000,000 for volcano hazards research. The Survey should evaluate ongoing needs for important volcano research and monitoring in active areas, such

as Hawaii, Yellowstone, the Cascades and Alaska, where the USGS maintains observatories. The bill also includes a \$1,500,000 increase for the global seismographic network.

Geologic Landscapes and Coastal Assessments. The bill does not include the funds requested for the water census. The Administration should revisit that issue and consider resubmitting a more integrated program request in the next budget cycle. The bill moves funds for priority ecosystems science from earth surface dynamics to biological research as requested, and provides \$750,000 for Great Lakes region geological mapping within the National cooperative geologic mapping subactivity. The bill includes \$3,000,000 for extended continental shelf mapping in the Arctic Ocean, a total of \$1,000,000 for the ocean action plan coastal geology effort, and \$500,000 for California sea floor mapping.

Geologic Resources Assessments. The bill provides the fiscal year 2008 funding level for the minerals resources activities and assessments and includes \$650,000 to initiate a minerals resource assessment of federal lands in Nye County, Nevada, in collaboration with the University of Nevada, Las Vegas and the Nevada Bureau of Mines and Geology. The Survey's April 2008 petroleum resource assessment of the Bakken Formation was an important benchmark to further our nation's energy security. The Survey is strongly encouraged to expedite its efforts to conduct further applicable assessments or make additional data publicly available that can demonstrate the full range of energy resources in the stratigraphic sequences surrounding the Bakken Formation.

Ground Water Resources. The bill does not provide funding for the Water for America initiative but it does include a \$500,000 general increase and \$900,000 for San Diego, CA, aquifer mapping. Although funding is not

provided for new aspects of the Water for America initiative, the importance of this work is recognized and future budgets should consider a more integrated program request for this work.

National Water Quality Assessment. The bill does not include the large reduction requested for this vital program.

Toxic Substances Hydrology. As requested, the bill transfers funds for priority ecosystems science to the biological research program. In disagreement with the budget request, the bill continues funding for amphibian research and monitoring but moves that amount to biological research where the work will be accomplished.

Hydrologic Research & Development. The bill provides \$270,000 to continue the Hood Canal, WA dissolved oxygen study, \$295,000 to maintain the San Pedro River partnership, AZ, \$400,000 for the Long Term Estuary Assessment Group, LA, and \$500,000 to continue work pursuant to the US-Mexico Transboundary Aquifer Assessment Act.

National Streamflow Information Program. The bill does not include funds for the Water for America initiative but does include a general increase of \$2,000,000 for the stream gage program.

Hydrologic Networks and Analysis. The bill maintains the fiscal year 2008 funding level for the ocean action plan in this subactivity, provides \$497,000 to continue the Lake Champlain basin toxic materials study and \$500,000 to maintain Hawaii water resources monitoring activities. The Survey is encouraged to evaluate the need for selenium studies in Colorado and, to the extent possible, incorporate that work into other ongoing hydrologic research in the area.

Biological Research. The bill includes the following: a total of \$750,000 for the Healthy Lands Initiative; the requested funds for priority ecosystems science; the fiscal year 2008 level for Pacific Northwest forest biology; \$650,000 for contaminant and endocrine biology research; \$200,000 for the science excellence program with the Fish and Wildlife Service; \$500,000 to maintain the San Francisco, CA salt ponds restoration science; \$800,000 to maintain the Leetown, WV molecular biology effort; \$750,000 to maintain amphibian research and monitoring; a \$1,000,000 increase for Great Lakes biological sciences; and a total of \$5,000,000 for National Biological Information Infrastructure. The Survey is encouraged to provide full support for the southern sea otter science and monitoring effort.

Facilities. The bill provides the budget request, plus an additional \$4,000,000 for the deferred maintenance and capital improvement activity to continue the on-going project begun last year.

Global Climate Change Research. The bill includes all of the internal funding transfers recommended by the Survey in order to establish this new budget activity, and an increase of \$14,045,000 above the total request. Within the amounts provided, \$10,000,000 is for the National Global Warming and Wildlife Science Center and at least \$3,000,000 is to implement required geological and biological carbon sequestration studies as required by sections 711, 712 and 714 of the Energy Independence and Security Act of 2007.

The National Global Warming and Wildlife Science Center funding includes \$2,500,000 to complete establishment of the Center. Additionally, the funding allows the Center to develop mechanisms that will ensure that it is responsive to the research and management needs of Federal and State agencies regarding the impacts of global warming on fish, wildlife, plants and ecological processes and the mechanisms for adaptation to, mitigation of, or prevention of those impacts. The recommendation also includes \$7,500,000 for

the Center to fund research projects, including use of external and independent scientific peer review, to address the needs of resource management agencies and the American public through greatly accelerated global warming research and through development of decision support tools.

The Secretary, with the assistance of the USGS National Climate Change and Wildlife Science Center and a science advisory board, including members recommended by the National Academy of Sciences, should initiate development of a national strategy to assist fish, wildlife, plants, and associated ecological processes in becoming more resilient, adapting to, and surviving the impacts of climate change. In developing this national framework for flora and fauna conservation in a changing climate, the Secretary should consult with other Federal agencies, State fish, wildlife and conservation data agencies, Territories, Tribes, scientists, and stakeholders, and the Secretary should provide the public with notice and opportunity for comment.

Budget estimate, 2009	+180,000

The bill includes \$6,303,000 for oil spill research.

ADMINISTRATIVE PROVISIONS

Budget estimate, 2009	+13,635,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill provides the requested increases and offsets them with a rescission of \$8,500,000 in unobligated balances from prior appropriations. In addition, the bill makes permanent the authority previously given annually for the State of Maryland to set aside the greater of \$1,000,000 or 10 percent of the total of the grants made available to the State for certain acid mine drainage abatement and treatment activities. The Surface Mining Control and Reclamation Act Amendment Act of 2006 did not provide a funding source for state emergency programs, therefore, the Administration request to discontinue funding for this important program is denied.

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill includes funding for wildfire suppression at the ten-year average suppression cost. The bill does not provide the requested decreases for the preparedness program; the increased funds for preparedness are for fixed costs. Burned area rehabilitation funding has been reduced by \$4,600,000 because the Native Plant Materials Development Program has been moved to the BLM.

The Department and the Forest Service must work together, along with State and other partners, to maintain sufficient readiness with the preparedness program. The Department should do its utmost to maintain wildfire suppression capability at least at the same levels as in fiscal years 2007 and 2008. The Department should immediately notify the Committees on Appropriations if it appears that funding shortfalls may limit needed firefighting capacity.

It is imperative that both departments expedite deployment of the fire program analysis system in order to justify further investment beyond the current fiscal year.

The Department of the Interior and the Forest Service should continue reports required by the Committees on Appropriations previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

Infrastructure Assistance. The bill provides \$1,873,609,000, which is \$308,164,000 above the request. Within this program area, the bill includes:

Mexican Border Infrastructure.—From within the amount provided for the Mexican Border program, \$2,500,000 is directed to El Paso and Brownsville, Texas as in prior years. Consistent with recommendations from the Inspector General in his March 31, 2008 Report, the Agency is directed to (1) complete planning and design of projects before it awards grant funds to the North American Development Bank for construction; (2) work with its partners to create a portfolio of developed projects, which would then be ready to begin construction as funding becomes available; and, (3) report to the Committees within six months of enactment on its progress to implement these directives and other IG recommendations.

Diesel Emission Reduction Grants.—The bill includes funds to support the Ports Initiative and the Agency is directed to consider giving priority funding to either ports with the largest volume of activity or ports in non-attainment areas.

California Emissions Reduction Grants.—The bill provides funds to continue cost-effective emission reduction project grants, to be divided equally between the San Joaquin Valley and the South Coast air quality districts. These grants shall fund projects that reduce emissions and improve local air quality such as innovative or cost-effective retrofits, engine replacement, equipment replacement and technology development in the transportation, agriculture, and port sectors. Funds shall be matched at the program level on at least a 1-to-1 basis, and shall be awarded competitively.

Categorical Grants. The bill provides \$1,094,855,000, which is \$58,648,000 above the request, adjusted to reflect the Underground Storage Tank Program's movement to the LUST account. Within this program area, the bill includes:

Climate Change Initiative Grants for Local Communities.—The Bill includes \$10,000,000 for the Office of Air and Radiation to initiate a new, competitive grant program to assist local communities in establishing and implementing their own climate change initiatives. The goal of this program is to implement programs, projects and approaches, which demonstrate documentable reductions in greenhouse gases and are replicable elsewhere. The Agency is directed to follow these guidelines to implement this Program: (1) grants are to be awarded on a competitive basis; (2) they are to be one-time grants only; (3) grantees, other than tribes, are required to provide a 50 percent match for the Federal funds; (4) local, county, municipal and tribal governments are eligible to apply; (5) five percent of the funds shall be allocated to tribal governments; (6) grants will fund planning activities, demonstration pilots, innovative approaches and implementation of projects designed to reduce greenhouse gases; (7) examples of eligible projects include land use planning, programs to reduce vehicle miles traveled, improvements to building energy efficiency and projects to capture methane from agriculture operations for use as an alternative to fossil fuels. The Agency is directed to report on its progress in implementing this grant program, including a summary of the projects funded, estimates of greenhouse gases reduced and suggestions for future implementation of the program.

Section 106 Pollution Control Grants.—The bill provides \$218,495,000 for pollution control grants authorized by Section 106 of the Clean Water Act. The House and Senate Appropriations Committees do not support the Agency's recent National Permit Discharge and Elimination System (NPDES) rulemaking to create an incentive pool of funds for States that charge NPDES fees and have not provided funds to implement this change. The Agency is directed to award Section 106 grants using the historic allocation formula. The Committees have also rejected the Agency's proposal to direct the entire amount appropriated for water quality monitoring to statistically representative monitoring programs and direct the Agency to follow the historic allocation criteria between State capacity building and national surveys, as provided in fiscal year 2008.

Underground Storage Tank Grants.—The amount remaining in this account and not moved to the LUST account, is directed to fund state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY (INCLUDING RESCISSION OF FUNDS)

The bill includes two new administrative provisions which make permanent prior year limitations on the reimbursement of consultants, purchase of uniforms, and use of funds for facility construction projects. It also includes bill language concerning the Agency's use of Title 42 hiring authority. The bill includes a \$10,000,000 rescission from the State and Tribal Assistance Grants Account as proposed in the budget request. The Committees further direct the Agency to take this rescission from the following programs:

(1) Unobligated balances from the Title II Construction Grants program;

(2) Unobligated prior-year balances from State categorical grant programs; and

(3) Balances from special project grants appropriated in fiscal year 2002 or earlier which have not been obligated on an approved grant as of July 1, 2009.

The Agency is directed to provide a report to the Committees outlining the allocation of the rescission 15 days prior to implementation.

The bill includes a provision mandating that the Agency provide no less than \$6,500,000 from the Environmental Program and Management account for the Greenhouse Gas emissions reporting rule and restating the deadline for promulgation of a final rule, as directed by Public Law 110-161. That law directed EPA to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. The Committees are dismayed that the Agency missed its September 26, 2008 deadline to issue a draft rule and direct the Agency to redouble its efforts to meet the June 26, 2009 deadline to promulgate the final rule, as required by law.

This includes \$5,800,000 for program administration and \$51,645,000 for forest legacy projects. The Service is directed to fund projects in priority order according to the competitively-selected national priority list of projects. Within the

NATIONAL FOREST SYSTEM (INCLUDING RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$1,469,579,000
Budget estimate	1,349,537,000
Bill, 2009	1,509,805,000
Comparisons:	
Appropriations, 2008	+40,226,000
Budget estimate, 2009	+160,268,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Inventory and Monitoring.—Within the funds provided, \$1,000,000 of the funds provided for the Threat Assessment Centers program is for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands as authorized by Title IV of Public Law 108-148, the Healthy Forests Restoration Act.

Recreation, Heritage, and Wilderness.—The bill provides the fiscal year 2008 funding level, plus fixed costs, plus an increase of \$10,000,000. The Committees on Appropriations expect that each individual National Forest or Grassland will comply fully with all travel management regulatory requirements, particularly the science-based analysis in 36 CFR 212.5 (b)(1), the identification of unneeded roads in 36 CFR 212.5(b)(2), and the criteria for designation in 36 CFR 212.55(a) and (b). The Committees expect the Forest Service to identify priorities, and associated resource requirements, to fully comply with the regulatory requirements of 36 CFR 212.5(b) (1) and (2).

Forest Products.—The bill provides the budget request of \$322,666,000 plus an increase of \$10,000,000. The requested funds should be allocated as stipulated in the President's budget, following the Northwest Forest Plan. The funding increase should be used for those forests not covered by the Northwest Forest Plan that have budget shortfalls and capacity for additional, successful work.

The Service should consider all contract methods for implementing fuels reduction projects proposed on the Sierra and Sequoia

National Forests, including the Kings River, Sugar Pine, Frog, and revised Ice projects, including stewardship contracting authority provided under Section 323 of Public Law 108-7, and utilize available agency funding to accomplish these multiple objectives.

Vegetation and Watershed Management.—The bill supports the budget request to continue leafy spurge eradication on the Dakota Prairie Grasslands in conjunction with the Service's local partners. There is also a \$500,000 increase within available funding to remediate hazardous materials and other natural resource damage caused by drug cultivation on national forest lands; these funds should be distributed to support high-priority restoration needs following drug eradication activity.

Law Enforcement Operations.—The bill provides \$135,500,000 for law enforcement operations. The Service is expected to use the increase above the request to fund uncontrollable costs, continue efforts to increase the eradication of marijuana from national forest lands and maximize the number of inter-agency drug enforcement operations conducted with Federal and non-Federal partners. In particular, funding for counterdrug operations on the Daniel Boone (KY) and Mark Twain (MO) National Forests shall be maintained at no less than their enacted levels.

Valles Caldera National Preserve.—The bill includes \$4,000,000 for the Valles Caldera National Preserve Trust (NM). The increase over the enacted level should be used to fund capital improvements for the preserve.

Land Between the Lakes.—The bill includes the budget request of at least \$8,200,000 in appropriated funds to support activities at the Land Between the Lakes National Recreation Area (KY and TN).

Rescission.—The bill rescinds \$5,000,000 in unobligated, prior balances as proposed in the budget request. The bill language is within the National forest system appropria-

tion instead of as a General Provision as proposed by the Administration.

CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$464,768,000
Budget estimate	405,788,000
Bill, 2009	482,393,000
Comparisons:	
Appropriations, 2008	+17,625,000
Budget estimate, 2009	+76,605,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Facilities Construction. Within the funds provided there is: \$200,000 to begin Timberline Lodge water system upgrades, OR; \$600,000 for the Keenwild fire helicopter base, CA; \$185,000 for Uwharrie NF electrical upgrades, NC; \$250,000 for Sumter NF access improvements, SC; \$300,000 for the Kinzua recreation facility, PA; \$1,271,000 for facilities improvements on the Monongahela NF, WV; \$2,500,000 for construction of research field stations and support infrastructure in Hawaii; and \$1,500,000 for construction of a new work station for the Cherokee NF in Tennessee.

Roads Maintenance and Construction. The bill includes \$162,500,000 for road maintenance and \$66,325,000 for road construction; these allocations reflect new information from the Forest Service concerning appropriate allocations for maintenance versus construction. The construction activity includes \$1,000,000 for road improvements on the Tongass National Forest (AK) and \$825,000 for road improvements on the Monongahela National Forest (WV).

The Service should provide a report to the Committees on Appropriations by May 15, 2009 on road maintenance needs and policy options for designating portions of the Forest Service road system so it would be eligi-

ble for the next highway bill funding in a manner similar to Interior department bureaus.

Trails Maintenance and Construction. The trail maintenance activity should especially consider the needs of the Pacific Crest National Scenic Trail and the Florida National Scenic Trail. Within the funds for trail construction there is \$300,000 for the Humboldt-Toiyabe National Forest (NV) to construct the Reno-to-Tahoe Rim Trail and \$350,000 for the Monongahela National Forest (WV) trail improvements.

The bill retains previous base funding for maintenance, construction, and operation of the network of national scenic and historic trails; they should be funded at no less than the enacted level.

Legacy Road and Trail Remediation. The bill provides \$50,000,000 to expand the effort begun last year to begin to remedy the extensive backlog of roads and trails which harm the environment and provide poor public service. The Service should use legacy road and trail remediation funding in a strategic effort to decommission and fix roads and trails in environmentally sensitive areas, focusing on those areas where Forest Service roads may be contributing to water quality problems in streams and water bodies which support threatened, endangered or sensitive species. The Service should utilize public input to help select legacy road and trail remediation projects, and report back to the Committees on Appropriations on the selected projects, and make its selection process and implementation activities readily apparent on the Agency's web site.

Comparisons:	
Appropriations, 2008	+188,153,000
Budget estimate, 2009	+155,038,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Preparedness. The bill provides the fiscal year 2008 funding level, plus \$6,181,000 for fixed costs, plus \$3,000,000 to continue the firefighter retention initiative funded through P.L. 110-329. The Forest Service should maintain the levels of readiness needed for public safety that were established in fiscal year 2007. The Forest Service should analyze current readiness levels to determine whether maintaining preparedness resources in the field at a level not less than that established in fiscal year 2007 will, based on the best information available, result in lower overall firefighting costs. If the Forest Service makes such a determination, the Service should adjust the levels for preparedness and suppression funding accordingly and report on these adjustments to the House and Senate Committees on Appropriations. The Secretary of Agriculture should advise the House and Senate Committees on Appropriations in writing prior to the decision. In the future, the Committees on Appropriations expect the Service to request preparedness budgets that adequately cover the costs of readiness activities without undue shifts of expenses to the suppression appropriation.

The Committees are very concerned that the Service has not yet finalized or implemented a comprehensive plan to improve firefighter recruitment and retention in Region 5, despite documented vacancies in firefighting positions. The Committees understand that the Service is still studying a range of options to improve firefighter recruitment and retention in Region 5 and other high-risk areas of the nation, including changes to pay rates and scheduling flexibility. Further delay is not acceptable. The Service is directed to provide a comprehensive recruitment and retention plan, including a full spending plan for the funds appropriated in P.L. 110-329, to the Committees by no later than March 1, 2009.

Fire suppression operations. The bill provides the request, \$993,947,000, for fire operations, an increase of \$148,327,000 above the fiscal year 2008 non-emergency funding level. The Forest Service and the Department of the Interior should continue reports required previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

Hazardous Fuels. The bill provides \$328,086,000 for the hazardous fuels reduction

program, an increase of \$18,000,000 above the fiscal year 2008 level. This funding increase should be used in those areas facing the greatest risk from wildfires because of excessive fuel loads.

The Forest Service should provide no less than \$26,200,000 for the Quincy Library Group's hazardous fuels reduction activities (CA) as proposed in the request.

Rehabilitation. The bill provides \$11,500,000 to continue the rehabilitation of burned areas program as in fiscal year 2008; the Administration request eliminated this program.

Fire Plan Research and Development. The bill provides \$23,917,000 to continue the fire plan research and development program.

Forest Health Management Federal Lands. The bill provides \$17,252,000 for Federal lands forest health management, which includes the requested funding plus \$3,000,000 for a western bark beetle initiative. The increase should be allocated using the National Insect and Disease Risk map; the Service should focus its efforts on areas where tree mortality is expected to exceed at least 25 percent over the next 15 years.

Forest Health Management Cooperative Lands. The bill provides \$9,928,000 to continue the cooperative lands forest health program.

State Fire Assistance. The bill provides \$55,000,000 for State fire assistance, an increase of \$19,996,000 above the request. Within the funds provided, \$5,000,000 shall be provided to the South Lake Tahoe Public Utility District for the Lake Tahoe Community Fire Protection Project. These funds should be used by local utility districts to fund their highest priority fire protection projects such as increasing water pressure or installing new fire hydrants. Funds are to be matched by local water utility districts on at least a one-to-one basis.

Volunteer Fire Assistance. The bill provides \$9,000,000 for volunteer fire assistance, an increase of \$1,000,000 above the request.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The bill includes administrative provisions similar to previous years. This includes limiting transfers to the USDA for reimbursable charges to the requested amount and allowing up to \$50,000,000 to be assessed for fire, administrative and other facilities maintenance. The bill provides \$3,000,000 for the National Forest Foundation and \$3,000,000 for the National Fish and Wildlife Foundation; it is acceptable for these foundations to make grants to Federal recipients, including Forest Service offices. Bill language in Title IV, General Provisions, prevents any funding for the competitive sourcing program.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

Appropriation enacted, 2008	\$2,971,535,000
Budget estimate	2,971,533,000
Bill, 2009	3,190,956,000
Comparisons:	
Appropriations, 2008	+219,421,000
Budget estimate, 2009	+219,423,000

The detailed allocation of funding by program area and activity for the Indian Health Services account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

Domestic violence within the American Indian and Alaska Native (AI/AN) communities continues to be an area of serious concern. Children in these communities have the second highest rate of maltreatment in the country, and one in three AI/AN women will be physically or sexually abused in her life-

time. In order to provide the Indian Health Service (IHS) with additional tools to better address child and family violence in AI/AN communities, the bill includes \$7,500,000 to implement a nationally coordinated domestic violence prevention initiative. With these funds, the IHS is encouraged to further expand its outreach advocacy programs into Native communities, expand the Domestic Violence and Sexual Assault Pilot project already in operation; and use a portion of the funding for training and the purchase of forensic equipment to support the Sexual Assault Nurse Examiner program (SANE). Within 90 days of enactment, the Service should provide an outline of how funds will be allocated, and an assessment of next steps to be taken to further advance the various components of this initiative in the coming fiscal year. The report should also address the Service's progress in developing standardized sexual assault policies, as well as a cost estimate for full implementation of the SANE program.

An additional amount of \$2,500,000 is provided to support the Service's health information technology efforts. The House and Senate Committees on Appropriations view the various components of this program—from electronic records management to telehealth technologies—as essential to the increased availability of quality health services throughout Indian Country.

The Service, and particularly the Director of Oral Health, is strongly encouraged to redouble its efforts to address the alarmingly high vacancy rates among health professionals, for example 31 percent among dental professionals, in the Indian Health Service. Therefore, an increase of \$8,299,000 over the fiscal year 2008 enacted level has been provided for Dental Services in order to maintain current levels of care and provide for the staffing of new facilities.

The bill provides \$16,391,000 to continue the grant program to treat and prevent methamphetamine abuse. This is an increase of \$2,609,000 over the amount provided in fiscal year 2008, and it is expected that the Service will use a portion of the funding for the treatment of behavioral and mental health problems associated with methamphetamine use. To determine the effectiveness of this program, which was initiated in fiscal year 2008, the Service is directed to report on the progress, accomplishments, and achievements of this program to the Committees on Appropriations within 60 days of enactment of this legislation. In addition, the Service is encouraged to participate in the Fetal Alcohol Spectrum Disorders and Alcohol Screening, Intervention and Referral Initiative.

The Indian Health Service is directed to use the Indian Health Care Improvement Fund to bring the units with the highest level of need up to at least 40 percent before allocating funds to units with needs above 40 percent.

Within the resources available to the Hospitals and Clinics program, the Service is encouraged to provide such assistance as may be necessary for the newly formed Nevada Indian Health Board to fully establish its operations.

Within the amount provided for Indian Health Professions, it is expected that the Service will fund the InMed, RAIN and InPsych programs at no less than the current levels and manage them in the same manner as in prior years. The Service is also expected to use health professions program funding for loan repayment and scholarship programs to encourage increased recruitment and retention of health professionals.

The Service is directed to re-examine the policies it currently has in place for the integration of newly recognized tribes into the IHS system. There have been complaints regarding the length of time it now takes for

a newly recognized tribe to obtain the funding and services to which it is entitled under the law. While acknowledging the budgetary constraints within which the IHS must operate, it is not unreasonable for newly recognized tribes to expect that a process would be in place for the prompt assessment of tribal needs, the subsequent development of a specific plan for the delivery of health services and funding, and a timeline for doing so. The Service is directed to report to the Committees on Appropriations within 90 days of enactment of this legislation with recommendations for the improvement of the current ad hoc system.

INDIAN HEALTH FACILITIES

Appropriation enacted, 2008	\$374,646,000
Budget estimate	353,329,000
Bill, 2009	390,168,000
Comparisons:	
Appropriations, 2008	+15,522,000
Budget estimate, 2009	+36,839,000

The detailed allocation of funding by program area and activity for the Indian Health Facilities account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

The bill provides \$40,000,000 for health facilities construction, but it does not allocate specific projects within that amount. Instead, the Service is directed to select projects from the priority list based upon readiness, as well as need, and report to the Committees on Appropriations within 60 days of enactment on the specific construction projects it intends to fund. It is expected that facilities funding will continue to be distributed in a manner that addresses the fluctuating annual workload and maintains parity among tribes and Indian Health Service areas as the workload shifts. The Service is further expected to use savings achieved from completed health care facilities construction projects to continue other high priority projects from the Service's construction list.

The high vacancy rate of health professionals in the Indian Health Service has not been substantially alleviated by current recruitment and retention efforts. To the extent possible, the Service is encouraged to use the construction and improvement of staffing quarters as a vital tool to recruit and retain these health professionals.

Within the overall amount provided for construction, the House and Senate Committees on Appropriations recommend \$500,000 for new mobile dental units. There is a concern, however, that high dental vacancy rates have left newly constructed units understaffed. The Service should attempt in the distribution of these funds to ensure that staffing will be available for new units and that construction can be initiated in an expeditious manner once funds are committed.

No resources have been provided for the joint venture and small ambulatory grants programs because all qualified projects on the existing list have been completed. These programs have broad support, and the Service is directed to initiate new solicitations for both in this fiscal year. As in the past, the Service is encouraged to provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction when determining priorities for project funding under the joint ventures program for hospitals and clinics.

The recent GAO findings on the Indian Health Service's inventory management system are of particular concern. Although the IHS has reportedly taken steps to address the issues specifically identified in the report, the GAO is directed to conduct a follow-up investigation of the Service's inven-

tory management system to ensure that proper safeguards have been put in place to ensure full accountability. In addition, the IHS is strongly encouraged to evaluate its entire inventory management system, take necessary steps to correct any deficiencies, and report to the Committees on Appropriations on these efforts no later than 60 days after enactment of this Act.

An amount of up to \$2,700,000 from within funds from both the "Facilities" and "Services" accounts is designated in the bill for the purchase of ambulances through an existing agreement with the General Services Administration. This is an increase of \$1,700,000 from previous years and reflects the current GSA estimate of \$100,000 per replacement vehicle.

The reallocation includes \$5,000,000 from facility services in the Salaries and Expenses account and \$5,000,000 from facilities planning in the Facilities Capital account. While the bill maintains the traditional structure for appropriating facility funding in the two accounts, the House and Senate Committees on Appropriations request that the Secretary of the Smithsonian review this structure to determine whether a consolidation of these funds under the Facilities Capital account would provide a more systemic review of facility funding requirements throughout the Institution.

Government Accountability Office Review of Reform Process.—The House and Senate Committees on Appropriations believe that much progress has been made by the Smithsonian to address the failures which contributed to a decline in Congressional and public confidence in the management and governance of the Smithsonian Institution. The appointment of a new Secretary, the restructuring of a more active Board of Regents, and the adoption of a series of policy changes to correct fiscal and management failures are very positive signs. The Committees believe, however, that these are only the initial steps and

that a continuing commitment to reform, especially to the principals of fiscal stewardship of public resources, and to accountability and openness, are essential. The Committees request that the Government Accountability Office conduct a thorough review of the reform process and submit a progress report to the Committees no later than December 31, 2009.

National Zoo.—The House and Senate Committees on Appropriations are pleased that the National Zoo has recently received full accreditation from the Association of Zoos and Aquariums (AZA). The Committees recognize, however, that maintaining accreditation is an on-going process and encourage the Smithsonian to give priority in allocating resources to meet continuing staffing needs identified during this year's AZA review.

Reprogramming Guidelines

The reprogramming requirements for fiscal year 2009 applicable to funds appropriated in this Act for programs under the jurisdiction of the Interior, Environment and Related Agencies Subcommittees remain the same as

in effect for fiscal year 2008 with one exception (see H. Rept. 110–187, pages 190–191). In addition to these requirements, the Committees on Appropriations direct that all major reorganizations be submitted for review prior to their implementation.

Workforce planning

The Department of the Interior is a highly staff-intensive agency employing approximately 70,000 people. This staff is distributed

throughout eight major bureaus and numerous other offices. Similarly, the Environmental Protection Agency, which employs over 17,000 staff, has 12 offices within headquarters, 10 regions and scores of laboratories and centers, while the Forest Service has over 30,000 employees in over 750 offices in 48 States and territories. The Committees on Appropriations are concerned that workforce plans for the Department of the Inte-

rior, the Environmental Protection Agency and the Forest Service are in many cases outdated and that no comprehensive review of appropriate staffing needs for the future has been undertaken. The Committees request that the Government Accountability Office conduct a review of existing workforce planning processes throughout these institutions and make recommendations for changes based on appropriate best-practices

models used by other federal agencies. The Committees request this report be submitted no later than December 31, 2009. HRSA shall brief the Committees on Appropriations of the House of Representatives and the Senate on the terms and conditions of its proposed request for application prior to its public release.

DIVISION F—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2009

Following is an explanation of the effects of this division (hereafter referred to as the “bill”). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Departments and agencies funded in this bill shall submit statements on the effect of this Act to the Appropriations Committees

within 45 days of enactment of this Act, pursuant to section 518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2009 budget.

**TITLE I—DEPARTMENT OF LABOR
EMPLOYMENT AND TRAINING ADMINISTRATION
TRAINING AND EMPLOYMENT SERVICES**

The bill includes \$3,626,448,000 for Training and Employment Services, which is \$50,180,000 above the fiscal year 2008 funding level and \$565,525,000 above the budget request.

The bill continues the funding for Community-Based Job Training grants within the Dislocated Worker Assistance National Reserve. Within the funds provided for the Community-Based Job Training Initiative (CBJTI), the Department of Labor (DOL) should provide priority consideration to worker training programs for the energy efficiency and renewable energy industries specified in the Green Jobs Act of 2007. A similar priority should be established in awarding competitive grants for high growth industries. Consultation with the Committees on Appropriations of the House of Representatives and the Senate prior to the issuance of CBJTI and high growth industry solicitations of grant applications is requested.

The amount provided for YouthBuild will allow for the selection of additional YouthBuild grantees. The Department is encouraged to incorporate a priority for use of green building techniques in its competitive selection of additional YouthBuild programs. The Department also should explore ways to expand assistance to YouthBuild programs to enhance their ability to teach green building techniques, to prepare youth for employment in green construction while increasing the energy efficiency of local housing. The Department should provide recommendations to the Committees on Appropriations of the House of Representatives and the Senate on how this type of assistance could be expanded beyond the current DOL grantees.

The bill includes new language that will allow YouthBuild grantees to use grant awards for program year 2009, as well as remaining funds available in program year 2008, to serve individuals who have dropped out of high school and reenrolled in an alternative school, if that reenrollment is part of a sequential service strategy. This is the same integrated approach used when the program was administered by the Department of Housing and Urban Development.

Within the amount provided for Pilots, Demonstrations and Research, the bill designates \$5,000,000 for the continuation of the program of competitive grants to address the employment and training needs of young parents.

Within the amount provided for Pilots, Demonstrations and Research, the bill includes \$41,324,000 for the following projects in the following amounts:

Within the funds provided for Re-integration of Ex-Offenders, the bill designates \$88,500,000 for youthful offender activities. Within the amount provided for youthful offender activities, \$42,900,000 is available to continue a school mentoring initiative that began in program year 2006. These funds are intended to be used to implement mentoring strategies that integrate educational and employment interventions and prevent youth violence. Within this amount, \$7,900,000 shall be used to continue those mentoring grants made with program year 2008 funds, along with the technical assistance that supports these grantees. This amount represents a down payment for continuation costs of those grants made with 2008 funds. The balance of continuation costs associated with those 2008 grants will be provided in fiscal year 2010. Bill language requires \$35,000,000 under the school mentoring initiative to be used for additional grants, and associated technical assistance, to implement mentoring strategies in schools identified as persistently dangerous.

Also within the amount provided for youthful offender activities, \$45,600,000 is available for other activities to support the employment needs of youthful offenders so as to prevent them from re-entering the criminal justice system. Of this amount, \$20,000,000 is included for a program of new competitive awards for activities that prepare young ex-offenders and school dropouts for employment. This competition should address the needs of minority communities, and shall include opportunities for national and regional intermediaries with demonstrated capacity to serve young offenders to apply. Funds not used for this new competition are available for continuation funding for existing grantees.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The bill includes \$571,925,000 for Community Service Employment for Older Americans, which is \$50,250,000 above the fiscal year 2008 funding level and \$221,925,000 above the budget request. New bill language will allow for these funds to be recaptured and reobligated in accordance with section 517(c) of the Older Americans Act.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

The bill includes \$958,800,000 for Federal Unemployment Benefits and Allowances, which is \$70,100,000 above the fiscal year 2008 funding level and the same as the budget request.

Within the amount provided for grants to the States for the administration of Unemployment Insurance (UI), the bill includes a new provision, recommended in the budget request, requiring that \$10,000,000 in base UI funds be used for in-person reemployment and eligibility assessments and UI improper payment reviews. An additional \$40,000,000 is provided for this purpose. It is expected that a portion of the funds provided will be used for technology-based overpayment prevention, detection, and collection infrastructure investments in support of these activities. The bill also contains new language allowing the Secretary of Labor, at the request of a State participating in a consortium, to reallocate funds under Title III of the Social Security Act to other consortium members to carry out activities that benefit the unemployment compensation law of the requesting State.

Within the total for Employment Service National Activities, \$18,520,000 is provided for the administration of the Work Opportunity Tax Credit. Funds for Foreign Labor Certification activities are now consolidated and separately identified in this account. Previously, funds were provided in this account and in the Employment and Training Administration Program Administration account. Due to concern about the Department's new requirement for State Workforce Agencies to assume the responsibility for employment verification in the H-2A agricultural workers program, the Secretary is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days of the enactment of this Act on the costs to States and legal basis for imposing this responsibility on a mandatory basis.

Within the amount provided for One-Stop Career Center and Labor Market Information, the Department is directed to fund workforce information grants to States at not less than \$32,000,000. Also within the total, not less than \$2,500,000 is provided for competitive grants to State agencies to identify job openings and skill requirements for the energy efficiency and renewable energy industries and to refer workers to job openings and training programs as outlined in 171(e)(2)(C) of the Workforce Investment Act.

The increase in funding for Work Incentive Grants is intended to allow for the integration of disability navigators into the one-stop system in all participating States and the evaluation of the progress to date in reaching this goal.

The bill includes \$422,000,000 for Advances to the Unemployment Trust Fund and Other Funds, which is \$15,000,000 below the fiscal year 2008 funding level and the same as the budget request. The bill includes \$440,267,000 for the Employment Standards Administration, which

is \$19,342,000 above the fiscal year 2008 level and \$28,393,000 below the budget request.

Within the amount provided for the Enforcement of Wage and Hour Standards, \$1,000,000 is provided for accelerating start-up of a system to resolve claims of victims for injury caused by asbestos exposure. Activities to shorten the lead-time for implementation may include planning for the promulgation of regulations and establishing procedures for the processing of claims, including the expediting of exigent health claims. The Wage and Hour Division may use contracts with individuals or entities with the relevant experience to jump start the process. Funds not needed for this purpose, if authorizing legislation is not enacted, should be used for additional investigations as outlined in the budget request.

The bill includes a rescission of \$97,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. Sufficient funds will remain to ensure that the Department of Labor will be able to continue its enforcement activities under the current legislative authority.

The bill conforms with the budget request to provide an additional \$55,358,000 for the activities performed under this program by the National Institute for Occupational Safety and Health directly to the Centers for Disease Control and Prevention.

BLACK LUNG DISABILITY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The bill includes such sums as necessary for payment of benefits and interest on advances for the Black Lung Disability program. The recommendation assumes that \$1,072,000,000 will be required for this account, which is \$4,000,000 above the fiscal year 2008 funding level and the same as the budget request. The bill provides for transfers from the trust fund for administrative expenses for Department of Labor agencies and for the Department of the Treasury.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The bill includes \$513,042,000 for the Occupational Safety and Health Administration (OSHA), which is \$27,041,000 above the fiscal year 2008 funding level and \$11,368,000 above the budget request.

The Department should use the increase above the fiscal year 2008 funding level to begin rebuilding OSHA's enforcement capacity and to increase the pace of standard setting. An important component of this mission is to enhance enforcement and oversight

of injury and illness recordkeeping to ensure complete and accurate recording and reporting by employers. OSHA should use \$1,000,000 of the funds provided above the request for a recordkeeping enforcement initiative on injury and illness reporting, addressing the apparent lack of completeness of the OSHA Log of Work-related Injuries and Illnesses. The Department shall provide a letter report on OSHA's current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

The increase above the request for State Programs is intended to support the efforts of the Illinois Department of Labor to become a State-plan State for public work-sites.

The bill provides \$10,000,000 for Susan Harwood Training grants, and designates \$3,144,000 within this amount for the continuation of Institutional Competency Building training grants awarded in February 2008, provided that a grantee has demonstrated satisfactory performance.

The funds over the request are provided to accelerate the implementation of the MINER Act and to improve the health and safety of miners. These funds are specifically directed toward ensuring that MSHA is able to conduct and follow up on 100 percent of its mandatory inspections; adequately train and hire coal mine safety enforcement personnel; improve the infrastructure of the National Mine Health and Safety Academy; accelerate the certification and approval of safety and health equipment, including communication and tracking technologies required in the MINER Act; and ensure the compliance with and effectiveness of statutory training requirements. In each of these areas and others specifically required by the MINER Act, the Department shall submit an overall operating plan within 60 days of enactment of this Act, and quarterly progress reports thereafter, to the Committees on Appropriations of the House of Representatives and the Senate.

Within the amount provided for Coal Enforcement, \$2,000,000 shall be used to increase

spot inspections of respirable dust levels in the active workings of coal mines. MSHA shall report to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009 on the feasibility and efficacy of MSHA assuming responsibility for collecting dust samples, and using single, full-shift measurements instead of averages to ensure compliance with current law regarding the exposure limit for respirable dust.

Within Educational Policy and Development, \$2,000,000 above the budget request is provided to improve the infrastructure and expand on-line training programs at the National Mine Health and Safety Academy.

Within the funds provided for Technical Support, \$1,000,000 above the budget request is included for equipment and infrastructure at the Approval and Certification Center, which together with funds in the request that support additional staffing, will allow for progress in addressing the backlog of approval actions.

Within the amount provided for Program Administration, \$1,808,000 is provided for an award to the United Mine Workers of America to continue a project, initiated with the fiscal year 2008 appropriation, for classroom and simulated rescue training for mine rescue teams.

The MSHA Office of Accountability was established to provide focus and oversight to ensure that MSHA policies, enforcement procedures, and guidance are being complied with consistently and that the agency is accomplishing its mission-critical activities. MSHA is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate, no later than May 1, 2009, on staffing and budget resources expended or planned for fiscal years 2008 and 2009; findings and recommendations of audits conducted to date; and the status of all corrective actions recommended.

BUREAU OF LABOR STATISTICS SALARIES AND EXPENSES

The bill includes \$597,182,000 for the Bureau of Labor Statistics (BLS), which is \$52,381,000 above the fiscal year 2008 funding level and \$4,376,000 above the budget request.

The increase above the request for Employment and Unemployment Statistics is provided for BLS to maintain the American Time Use Survey.

The increase above the request for Compensation and Working Conditions is in-

tended to strengthen the current examination of the differences between workers' compensation and BLS survey data, better understand employer injury and illness recording practices, and conduct a pilot study using multiple data sources to capture injury and illness data. BLS shall provide a letter report on its current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

The bill provides that \$1,500,000 may be used for the Mass Layoff Statistics Program. These resources, together with \$3,500,000 to be contributed from the Employment and Training Administration, are sufficient to continue this program.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The bill includes \$26,679,000 for the Office of Disability Employment Policy (ODEP), which is the same as the fiscal year 2008 funding level and \$14,238,000 above the budget request. No less than 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policies that reduce barriers to employment for youth and adults with disabilities. Within the funds provided, \$500,000 shall be used to expand a structured internship program for undergraduate college students with disabilities.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The bill includes \$314,198,000 for Departmental Management, which is \$20,246,000 above the fiscal year 2008 funding level and \$50,715,000 above the budget request.

International Labor Affairs Bureau

The bill includes \$86,074,000 for the International Labor Affairs Bureau (ILAB). The detailed table below and accompanying statement language establish the allocation of these funds. The Department may propose adjustments to this allocation through the transfer and reprogramming guidance provided by this Act, which include requirements for advance notification of the Committees on Appropriations of the House of Representatives and the Senate.

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
ILAO-IPEC contribution	\$39,260,000	+\$3,000,000	+\$39,260,000
Basic Grants	20,000,000	—1,750,000	+20,000,000
Promotion of worker rights in countries with trade preference programs	6,500,000	+1,777,000	+6,500,000
Research, policy, reporting and administration	20,314,000	+1,972,000	+5,492,000

ILAB shall use \$39,260,000 for the United States' contribution to expand on the successful efforts of the International Labor Organization's (ILO) International Program for the Elimination of Child Labor (IPEC). ILAB shall ensure that these funds are spent effectively in the effort to reduce the worst forms of child labor.

The bill also provides \$20,000,000 to continue the program of basic education grants in countries where the growing number of children removed from abusive and exploitative child labor need access to basic education. The Department shall continue to work with the governments of host countries to eliminate school fees that create a barrier to education.

The bill also provides \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States

has trade preference programs. Within this amount, \$2,500,000 is included to expand the existing cooperative agreement for the development of an effective system of monitoring and transparent public reporting on the adherence to, and enforcement of, worker rights in the Republic of Haiti. These additional funds will allow the implementation of an effective monitoring program in factories, including the training of labor inspectors, and reflect the support for a multi-year funding commitment to improve the working conditions in Haiti's garment industry and increase compliance with core international labor standards. Cost sharing from Haiti shall continue to support this effort.

Within the funds provided for research, policy, reporting and administration, sufficient funds are included to expand the competitively awarded contract for oversight of public and private initiatives to eliminate

the worst forms of child labor in the cocoa sector in Cote d'Ivoire and Ghana. These funds are intended to support the assessment of the implementation of the child labor monitoring system by industry covering 100 percent of the cocoa growing areas in Cote d'Ivoire and Ghana and other objectives of the current contract where full assessment has not been possible due to the delay in the implementation of a transparent certification system. These funds will support continued annual reporting through 2010, which should include a programmatic review of industry and national government efforts to remediate the worst forms of child labor and adult forced labor in the cocoa supply chain. The review should also include recommendations for the frequency of data collection needed in the field to accurately report on the incidence of the worst forms of child labor and adult forced labor in order to

measure the decline over time of these abusive labor practices.

Also within research, policy, reporting and administration, not more than \$1,500,000 shall be available for research activities authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, as proposed in the budget request.

Sufficient funding within research, policy, reporting and administration also is included for the effective oversight, monitoring, audit and evaluation of ILAB's project portfolio to ensure that taxpayer dollars are well spent in the effort to eliminate exploitive child labor, increase respect for and compliance with the fundamental rights of workers, and meet ILAB's other mandates and responsibilities. ILAB shall ensure that funding in this bill is spent effectively in carrying out its mission and achieving its performance goals and objectives.

Legal Services

The Office of the Solicitor shall support no less than an increase of five full-time equivalents for enforcement support for the Mine Safety and Health Administration.

Women's Bureau

Within the funds provided for the Women's Bureau are sufficient resources for the expansion of a competitive award designed to support local women's employment and training programs throughout the United States. These funds shall be used to continue to support technical assistance, online and toll-free referral services, and other activities that advance unemployed and underemployed women in the workforce.

Minority unemployment

The Secretary of Labor shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate by July 1, 2009 detailing the actions that the Department will take under existing authorities to ensure that its programs and policies are oriented to reduce the disparities in unemployment rates across racial and ethnic groups.

Greenhouse gas emissions

The Secretary of Labor is directed to provide the Committees on Appropriations of the House of Representatives and the Senate a detailed inventory of the Department's greenhouse gas emissions, and a plan to reduce these emissions, by December 31, 2009.

OFFICE OF JOB CORPS

The bill provides \$1,683,938,000 for the Office of Job Corps, which is \$73,432,000 above the fiscal year 2008 funding level and \$119,239,000 above the budget request.

The funds provided for Job Corps Operations are intended to support the operations of the 122 current Job Corps centers, as well as allow two new centers, in Florida and Wisconsin, to begin operations, as scheduled, in program year 2009. The Department also should work to reverse the erosion in training offerings that has occurred over the past two years. In restoring career training slots, priority should be given to matching training to labor market needs, including growth sectors, such as health care, and to prepare students for careers that respond to the

growing demand for energy-efficient building techniques and other "green" jobs. Within the funds provided for Job Corps renovation and construction are sufficient funds to continue the development of three new Job Corps centers, with the intention that the timelines for accepting students at these new centers—New Hampshire in September 2010, Iowa in November 2010 and Wyoming in February 2011 will be met.

The Department shall conduct a capital assessment of the Harpers Ferry Job Corps Civilian Conservation Center in Harpers Ferry, West Virginia, and report the results of this assessment to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009.

VETERANS EMPLOYMENT AND TRAINING

The bill includes \$239,439,000 for Veterans Employment and Training, which is \$11,343,000 above the fiscal year 2008 funding level and \$1,000,000 above the request.

The Department of Labor should work, in coordination with the Departments of Housing and Urban Development and Veterans Affairs, to address the needs of homeless veterans, including exploring new approaches for preventing additional veterans from becoming homeless.

OFFICE OF INSPECTOR GENERAL

The bill includes \$82,141,000 for the Office of Inspector General, which is \$7,751,000 above the fiscal year 2008 funding level and the same as the request.

Sec. 107. The bill continues a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for new grants for purposes other than training in the occupations and industries for which employers are using

the visas to hire foreign workers that generate these funds.

Sec. 108. The bill continues a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis.

Sec. 109. Sec. 110. The bill continues a provision that prohibits the use of funds to finalize or implement regulations under the Workforce Investment Act of 1998 (WIA), the Wagner-Peyser Act of 1933, or the Trade Adjustment Assistance Reform Act of 2002 (TAA), until such time as the WIA or TAA legislation is reauthorized.

HEALTH RESOURCES AND SERVICES

The bill includes \$7,259,436,000 for health resources and services, of which \$7,234,436,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, which is \$378,245,000 above the fiscal year 2008 level and \$1,369,925,000 above the budget request.

The bill includes language identifying \$56,000,000 for base grant adjustments for existing community health centers.

The bill includes language providing \$1,886,873,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2011.

The bill includes language similar to that contained in the fiscal year 2008 bill that limits 2008 program year reductions in Ryan White Part A grants for metropolitan areas to 6.3 percent and for transitional areas to 11.3 percent by providing \$10,853,000 for supplemental grants for fiscal year 2009.

The bill includes language setting aside \$92,551,000 for Special Projects of Regional and National Significance (SPRANS) and \$10,400,000 for Community Integrated Service Systems (CISS) within the Maternal and Child Health Block Grant. Allocations to State grants are increased by \$2,590,000 compared to fiscal year 2008. The bill assumes the following set-asides within SPRANS:

Funding for the Heritable Disorders Newborn Screening Program is provided under the authority of the Newborn Screening Saves Lives Act of 2008 rather than as a SPRANS set-aside, as in prior years. The funding total also includes \$5,031,000 for primary genetics and newborn screening activities that were previously supported in SPRANS base activities.

The bill includes language that identifies not less than \$5,000,000 for General Dentistry Programs, not less than \$5,000,000 for Pediatric Dentistry Programs, including loan re-

The bill includes language permitting up to one percent of the amount for each project to be used for related agency administrative expenses.

The bill includes language providing \$19,642,000 as a direct lump sum payment to the Denali Commission.

The bill includes \$26,000,000 for the Delta Health Initiative and associated administrative expenses.

The bill includes language identifying \$9,201,000 for State Offices of Rural Health. The bill includes language specifying that, within the funding provided for Rural Hospital Flexibility Grants, \$15,000,000 is available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology.

The Health Resources and Services Administration (HRSA) is encouraged to begin an initiative to expand community health center primary care services to low-income persons with serious mental illnesses.

HRSA is expected to continue to approve community health centers' proposed scope of project changes when necessary to ensure access to needed specialty services or to meet the comprehensive needs of special populations who may require care in other types of health care settings.

The bill provides \$14,200,000 for Native Hawaiian Health Care Activities within the Community Health Centers Program. Sufficient funding has been provided to permit the continuation of master's degree and certificate programs for Native Hawaiian health care administrators.

HRSA is directed to implement any new expansion initiative using the existing, and statutorily-required, proportionality for urban and rural communities, as well as migrant, homeless and public housing health centers.

HRSA is urged to confirm that the Federal Torts Claims Act covers clinicians employed or individually contracted by community health centers. HRSA is encouraged to work with the U.S. Department of Agriculture Rural Development Office to assist more community health centers in accessing these resources.

The bill includes \$75,000,000 for State Health Access Grants. Grants will be awarded competitively to States that demonstrate they have a program which will expand access to affordable health care coverage for the uninsured populations in that State. States will also be required to demonstrate that they have achieved the key State and local statutory or regulatory changes required to implement the new program within twelve months from the grant start date. States that have already developed a comprehensive health insurance access program would not be eligible to apply.

The types of activities that can be supported through this grant include: "three share" community coverage (employer, State or local government, and the individual); reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor; subsidized high risk insurance pools; health insurance premium assistance; creation of a state insurance "connector" authority to develop new, less ex-

pensive, portable benefit packages for small employers and part-time and seasonal workers; development of statewide or automated enrollment systems for public assistance programs; and innovative strategies to insure low-income childless adults.

Two types of State grants will be available: target grants (\$2,000,000-\$4,000,000 annually per State) for States that choose to target particular populations such as uninsured children, small business employees, or uninsured seniors; or comprehensive grants (\$7,000,000-\$10,000,000 annually per State) for States that are planning extensive coverage initiatives. Each grant will be awarded based on a five-year grant period, subject to the availability of funds, with funding distributed each year based on attaining benchmarks that would be designated in the grant award. States shall be required to demonstrate their seriousness of intent by matching twenty percent of the Federal grant through non-Federal resources, which could be a combination of State, local, and private dollars from insurers, providers, and other private organizations. Waiver of the matching requirement shall be possible if financial hardship is demonstrated. States shall also be required to demonstrate their ability to sustain the program without Federal funding after the end of the five-year grant period. HRSA should consider geographic diversity in the allocation of these awards. Senate about the outcomes and lessons learned from each of the State demonstrations eighteen months after the five-year grant period ends.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments.

Of the funds provided for Allied Health Training Programs, \$10,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care; \$1,945,000 is allocated to the Chiropractic-Medical School Demonstration Grants; and \$1,945,000 is designated for the Psychology Training Program.

Within the funding provided for the Autism and Other Related Developmental Disorders, an increase of not less than \$2,000,000 is provided to expand the Leadership Education in Neurodevelopmental and Related Disabilities Program. In addition, an increase of not less than \$2,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

HRSA should support Traumatic Brain Injury Protection and Advocacy Services at no less than the fiscal year 2008 level.

The bill includes \$1,000,000 to establish the Congenital Disabilities Program, which will provide information and support services to families receiving a diagnosis for Down syndrome, spina bifida, dwarfism, or other prenatally or post-natally diagnosed conditions. Competitive grants may be made to States and territories, localities, and non-governmental organizations with expertise in these conditions.

HRSA should allocate funds for the Minority AIDS Initiative within the Ryan White

HIV Programs at least at the fiscal year 2008 level.

With the \$7,550,000 provided in the bill for the Telehealth Program, the Office of the Advancement of Telehealth is directed to facilitate cooperation among health licensing boards or various States to develop and implement policies that will reduce statutory and regulatory barriers to telehealth and telehomecare. Funding supports grants for resource centers, networks, pilots, and demonstrations.

HRSA's decision to shift resources from rural health grants that specialize in rapid response policy analysis to grants that sponsor more general research is concerning. As Congress discusses healthcare reform, it will be crucial to have an accurate analysis of how specific policy proposals impact the rural population. HRSA is urged to reconsider this decision.

Rural and Community Access to Emergency Devices funding should be divided equally between urban and rural communities.

The Department of Health and Human Services is instructed to distribute to the regional offices all of the funds available for Family Planning services no later than 60 days following enactment of this Act. Regional offices should retain the authority for the review, award and administration of Family Planning funds, in the same manner and timeframe as in fiscal year 2006. At least 90 percent of Family Planning funds should be used for clinical services authorized under section 1001 of the Public Health Service Act. The Office of Family Planning is expected to spend any remaining year-end funds in section 1001 activities.

In addition, \$331,251,000 is made available under section 241 of the Public Health Service (PHS) Act, which is \$5,578,000 more than the fiscal year 2008 funding level and \$48,592,000 more than the budget request.

be awarded to States newly eligible for the program in fiscal year 2009 and no State may be eligible for more than \$1,000,000. Any amounts that have not been awarded by May 31, 2009 shall be awarded for other HIV testing programs.

CDC has convened a workgroup of CDC officials, outside tuberculosis (TB) professionals, and State and local public health officials to review and revise the TB funding distribution formula. The agency is directed to create a plan and submit such plan to the Committees on Appropriations of the House of Representatives and the Senate by no

later than March 1, 2009 identifying the optimal proportion of TB funding that should be distributed under the new funding formula being considered. Such formula should ensure that the funding distribution aligns with the epidemiological trends of the disease.

Within the total for Zoonotic, Vector-borne, and Enteric Diseases, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—

Within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$10,100,000 for the National Healthcare Safety Network (NHSN), a surveillance tool used by healthcare facilities and State and local public health departments to understand and prevent healthcare-associated infections (HAIs). According to CDC, hospitals participating in the NHSN have decreased bloodstream infections by up to 50 percent over the last ten years. With this increased funding, CDC shall expand NHSN capacity to increase the number of hospitals and other healthcare facilities participating, increase the types of infections collected by each facility, and accelerate the transition from manual to electronic HAI reporting.

Also within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$2,500,000 to be used to respond to outbreaks of disease caused in some part by the re-use of syringes in outpatient settings and to ensure that infection control measures are adhered to broadly, including provider education and patient awareness activities. CDC is encouraged to partner with industry and university researchers to identify the best interventions to reduce the possibility of disease transmission in the healthcare setting.

Within the total provided for Nutrition, Physical Activity, and Obesity, the bill includes \$500,000 for a study by the Institute of Medicine (IOM) that will examine and provide recommendations regarding front-of-package nutrition symbols. These should include, but not be limited to, a review of systems being used by manufacturers, supermarkets, health organizations, and governments in the United States and abroad and the overall merits of front-label nutrition icons, the advantages and disadvantages of

various approaches, and the potential benefits of a single, standardized front-label food guidance system regulated by the Food and Drug Administration. Based upon its work, the IOM should recommend one or several of the systems, along with means of maximizing the use and effectiveness of front-label symbols, that it has identified as best at promoting consumers' health.

The funds provided for the ALS Registry are intended to be used to develop and design a registry for ALS and other neurodegenerative disorders that will be of use to biomedical researchers working in the field.

Within the total for Environmental Health Activities, the bill includes \$7,500,000 for a

new Climate Change initiative to develop and enhance programs to help the nation prepare for and adapt to the potential health effects of global climate change. CDC is urged to develop additional expertise in epidemiologic and laboratory science, infectious disease ecology, modeling and forecasting, climatology and earth science, communication and behavioral change science, and to support public health research in these areas.

Within the funds provided for Environmental Health Activities, \$5,000,000 is provided to conduct assessments of Polycythemia Vera (PV) trends and associated

risk factors, including potential environmental risk factors, in PV cluster areas or in areas with potential environmental risk factors. These funds may also be used to evaluate efforts to improve reporting of PV and other hematologic cancers to cancer registries.

Within the total for Injury Prevention and Control, the bill includes funding for the injury control research centers (ICRCs) to support their core operations and to expand research to improve translation of effective

interventions. Injury is the leading cause of death and disability among children and youth. CDC is encouraged to continue its support for all ICRCs to ensure that each ICRC is funded at a level commensurate with programmatic expectations, including the new injury control research center that will

focus on research and prevention related to children and adolescents.

National Institute for Occupational Safety and Health

Within the program level total for the National Institute for Occupational Safety and Health (NIOSH), the bill includes the following amounts:

Budget activity	FY 2009 Bill	FY 2009 Bill compared to—

The total provided for NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility.

The bill includes sufficient resources to fully fund the existing Healthier Workforce Centers and to expand this network dedicated to research, education, and translation programs to integrate health protection and health promotion in the workplace.

The bill includes \$250,000 for NIOSH to undertake follow-up studies on the National Hospital Ambulatory Medical Care Survey on the underreporting of worker injury data, particularly focusing on the self-employed population. As NIOSH develops research agendas, NIOSH should consider the disproportionate attention paid to acute injuries and illnesses over chronic injuries and illnesses contracted at work places in America. NIOSH shall continue to work with the Bureau of Labor Statistics to improve the statistics that direct Federal enforcement and compliance efforts aimed at preventing illness and injury at our Nation's workplaces. NIOSH shall provide a letter report on activities in this area to the Committees

on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

According to a report issued in 2008 by the Institute of Medicine of the National Academies, there is a critical need to better understand the airborne transmissibility of pandemic influenza and other pathogenic bioaerosols to protect healthcare workers and to gauge the efficacy of the currently recommended types of respirators. The bill includes \$3,000,000 within the total for Personal Protective Technology for NIOSH to research modes of transmission of influenza and to evaluate filtering face piece respirators, other types of respirators, and other personal protective technology equipment. Further, NIOSH is urged to design and promote the next generation of personal protective equipment for healthcare workers and first responders to address the unique challenges posed by the healthcare environment.

Energy Employees Occupational Illness Compensation

For the World Trade Center (WTC) Medical Monitoring and Treatment program, the fis-

cal year 2009 program level is \$182,000.00. Approximately \$112,00.00 in carryover balances from prior year appropriated funds are available in fiscal year 2009. Combined with the \$70,00.00 included in this bill, the total amount available for the WTC program is sufficient to continue to expand the program in the New York City area and around the country for first response emergency personnel, residents, students, and others whose health has been impacted from exposure to toxins in or around the WTC site.

In addition, the bill includes \$55,358,000 for CDC to administer the mandatory Energy Employees Occupational Illness Compensation program, which is the same funding level as in fiscal year 2008 and the budget request. In prior years, funding was appropriated within the Department of Labor.

Global Health

Within the funds provided for Global Health, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request

CDC is encouraged to continue its support of research and development toward new anti-malarial drugs.

Terrorism Preparedness and Response

Within the funds provided for Terrorism Preparedness and Response, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Public Health Emergency Prep. Coop. Agreements	\$700,465,000	\$0	+\$129,562,000

Strategic National Stockpile	570,307,000	+18,798,000	0

With the level of funding provided in the bill for the Public Health Emergency Preparedness Cooperative Agreements program, CDC is expected to issue a full year of grants rather than reducing the grant cycle to nine months and three weeks as proposed in the budget request.

The bill provides an increase of \$16,637,000 over the fiscal year 2008 funding level for the network of quarantine stations at ports of entry across the United States. This funding is provided to maintain the current capacity at the 20 existing domestic quarantine stations, to hire additional employees to begin to adequately staff and operate these stations, and provide centralized core support

to the Quarantine and Migration Health System.

The Cities Readiness Initiative (CRI) provides resources to cities and metropolitan areas around the country to better distribute countermeasures during public health emergencies. Concerns have been raised about CDC's revised formula for the allocation of CRI funds. Several grantees are potentially facing reductions of up to 48 percent. Significantly reducing grant awards in a single fiscal year could have a damaging impact on a jurisdiction's readiness to disburse medical countermeasures. In this transition to a new formula, CDC should move gradually in implementation and limit grant award reduc-

tions in 2009. Further, before any final decision is made on the allocation of fiscal year 2009 resources, CDC should review this formula again to address the concerns raised by grantees. Further, CDC shall submit a written report and provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate justifying any changes to the CRI formula distribution used in fiscal year 2007 prior to issuing final guidance to grantees.

Preventive Health and Health Services Block Grant

As part of an HHS-wide initiative to reduce healthcare-associated infections (HAIs) coordinated by the HHS Office of the Secretary, the bill includes language that each State must certify that it will submit a plan by January 1, 2010 to the Secretary of Health and Human Services for reducing HAIs to be eligible for the full allotment in this Act under the Preventive Health and Health Services Block Grant. State plans shall be consistent with the Department of Health and Human Services national action plan for reducing such infections.

The bill also includes additional funding to provide States increased support for a wide range of public and preventive health activities. States are strongly encouraged to use these increased resources to invest in strategies to reduce HAIs through collaborations with public health departments and healthcare facilities and to begin to develop statewide plans.

Buildings and Facilities

Within the amount provided for Buildings and Facilities, the bill includes \$30,000,000 for nationwide repairs and improvements; \$71,300,000 for the completion of Building 24 on the Roybal Campus in Atlanta, Georgia; \$1,500,000 for facilities and equipment at the CDC laboratory in Ft. Collins, Colorado; and the remaining funds shall be used to begin planning and construction of Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia.

Business Services and Support

The funds for Business Services and Support are intended for CDC to carry out its business functions, including, but not limited to, administrative services, financial management, security and emergency preparedness, and procurement and grants. Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level, including at the coordinating center level.

NATIONAL INSTITUTES OF HEALTH

The bill includes \$30,317,024,000 for the 26 accounts that comprise the National Institutes of Health (NIH) total appropriation, which is \$937,500,000 above the fiscal year 2008 level and \$1,087,500,000 above the budget request. In addition, the bill continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, consistent with the budget request. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The bill provides up to \$8,000,000 for facilities repairs and improvements at the National Cancer Institute (NCI)-Frederick Federally Funded Research and Development Center in Frederick, Maryland.

The NCI is directed to name a Fellowship in Surgical Pathology the "Alan S. Rabson Award" to provide lasting recognition to the work of Alan S. Rabson, M.D., Deputy Director of NCI. As a pathologist, researcher, administrator, and clinical advisor, Dr. Rabson has demonstrated unequalled service in his 53 years at NIH. He is the author of more than 100 scientific journal articles and is credited with several discoveries in virology that paved the way for other important findings in this field. But, in particular, he has made his life passion helping cancer patients and their families come to grips with their cancer diagnosis and locating the medical treatment and provider that will help them most. He is joined in his dedication to NIH by his wife, Dr. Ruth Kirschstein, who served as the Acting Director of NIH and Director of several institutes. Naming a fellowship in honor of Dr. Rabson is a modest acknowledgement of how much the country is indebted to this unparalleled public servant.

NATIONAL CENTER FOR RESEARCH RESOURCES

The bill provides \$474,972,000 for clinical and translational science awards, divided between \$53,224,000 from the Common Fund and \$421,748,000 from the National Center for Research Resources. The bill provides \$224,043,000 for the Institutional Development Award (IDeA) Program.

OFFICE OF THE DIRECTOR

The bill provides \$25,000,000 in Flexible Research Authority as authorized under section 402 of the Public Health Service Act ("PHS Act"); up to \$192,300,000 for continuation of the National Children's Study; and up to \$8,000,000 for the Office of AIDS Research to make grants for construction or renovation of facilities as authorized in section 2354(a)(5)(B) of the PHS Act.

The bill provides funding for a 2 percent increase in the average cost of new and competing as well as non-competing grants. The bill provides \$35,000,000 for Transformative Research Project Grants; \$80,000,000 through the Common Fund for New Innovators Awards; \$40,600,000 through the Common Fund for the Director's Pioneer Awards; \$24,000,000 for the rare and neglected diseases initiative; and \$96,711,000 within the Office of the Director for radiological, nuclear, and chemical countermeasure research.

NIH is required to notify the Committees on Appropriations of the House of Representatives and the Senate each time the Director uses the statutory 1 percent transfer authority.

NIH is encouraged to take steps to accelerate implementation of its conflict of interest policy for contract staff.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

AGENCY FOR HEALTHCARE RESEARCH AND
QUALITY

HEALTHCARE RESEARCH AND QUALITY

The bill includes a program level of \$372,053,000 for the Agency for Healthcare Research and Quality (AHRQ), which is \$37,489,000 more than the fiscal year 2008 program level and \$46,389,000 more than the budget request. The bill makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

The bill does not include funding for the Health Insurance Decision Tool.

The bill includes \$50,000,000 for comparative effectiveness research within the total for Research on Health Costs, Quality, and Outcomes. This amount is \$20,000,000 more than the fiscal year 2008 funding level and the budget request. The objective of the program is to research difference healthcare interventions to help consumers, healthcare providers, and others make informed choices among treatment options. This investment will improve healthcare quality.

The investigator-initiated research portfolio at AHRQ has languished even though many of the sentinel studies that have changed the face of health and health care in the U.S. are the result of researchers' ingenuity and creativity. To advance discovery and the free marketplace of ideas, the bill in-

cludes increased funding to expand investigator-initiated research within the total for Research on Health Costs, Quality, and Outcomes.

Within the total for Research on Health Costs, Quality, and Outcomes, the bill includes \$41,889,000 for Patient Safety Threats and Medical Errors. The bill includes increased funding to reduce healthcare-associated infections (HAIs) and expand the Methicillin-Resistant *Staphylococcus Aureus* (MRSA) program begun in fiscal year 2008.

The bill includes \$9,304,000 for the Comprehensive Unit Based Program (CUSP), a patient safety program to reduce central-line associated blood stream infections in intensive care units (ICUs). The CUSP is modeled after the Michigan Keystone Program, which was successfully used in more than 100 ICUs in Michigan and, within three months of implementation, helped reduce infection rates to zero in more than 50 percent of the participating hospitals. With fiscal year 2008 funding, the CUSP is being implemented by State-wide consortiums in 10 different States and includes members of State hospital associations, quality improvement organizations, and public health agencies. With the increased funding in fiscal year 2009, AHRQ will be able to increase the number of participating hospitals within each of the 10 States, as well as increase the number of participating States, to bring this important and successful initiative to additional communities and healthcare facilities. In addition, AHRQ is urged to initiate a similar approach to CUSP in addressing other HAIs, including urinary tract infections and surgical site infections, as well as expand its activities to include research on ways to reduce HAIs in other healthcare settings, including hospital locations outside the ICU, dialysis centers, nursing homes, and ambulatory care settings.

AHRQ received funding in fiscal year 2008 to identify and reduce the spread of MRSA and other HAIs. Due to concern about the prevalence of these preventable infections, the bill provides AHRQ with \$8,000,000 to continue its work in this area. Funding is included to increase AHRQ's investment in evidence-based research to help healthcare providers and others implement quality improvement strategies to reduce the incidence of MRSA and other HAIs. In this effort, AHRQ is encouraged to continue to develop partnerships with healthcare delivery networks to implement system-wide MRSA prevention programs.

Within the funds provided for Social Services, the bill includes \$19,000,000 for continued support to communities with large concentrations of Cuban and Haitian entrants of varying ages whose cultural differences make assimilation especially difficult, justifying a more intense level and longer duration of Federal assistance.

The Administration on Children and Families (ACF) is requested to continue to adequately fund refugee school impact grants.

In conjunction with the Office of Management and Budget (OMB) and the Department of Homeland Security (DHS), the Department of Health and Human Services (HHS) is directed to submit a report to the House and Senate Committees on Appropriations (Committees) no later than March 1, 2009, recommending which agency is the most appropriate to fund the transportation of unaccompanied alien children (UAC) between DHS and HHS custody. This joint report shall focus on which agency can deliver these services in the most cost effective manner. In addition, starting no later than September 1, 2009, the ORR, in conjunction with Immigration and Customs Enforcement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provides sufficient resources to DHS to pay for this transportation function.

With regard to the UAC program, ORR is directed to respond to the DHS initial call for placement by identifying the ORR placement facility to DHS within six hours, on average, of receiving the DHS call. In addition, ORR shall continue to work with DHS to expedite the transfer and placement of these special needs children in the most appropriate facility as quickly as possible.

Within funds for the UAC program, \$5,050,000 is provided to continue the pro bono legal services initiative to ensure legal representation of all UAC. These funds should be used to train attorneys to detect abuse, mistreatment, labor exploitation, and trafficking of these children. In addition, a portion of these funds should be used to train attorneys in methods that will ensure the appearance of children at all immigration court hearings. ORR is expected to use part of these funds to assess the overall impact of the pro bono legal services initiative, including the number and proportion of UAC provided pro bono legal representation.

The bill includes \$9,050,000 more than the budget request for the UAC program to ensure that sufficient funds are available for UAC medical and transportation services.

Within the amount provided in the bill for Child Abuse Discretionary Activities, \$13,500,000 is provided to expand the home visitation initiative. These funds shall support continuing and new competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models that have been shown to improve the health, well-being, and self-sufficiency of low-income, first-time parents and their children. As in fiscal year 2008, ACF shall ensure that these funds support models that have been shown in well-designed, randomized controlled trials to produce sizeable, sustained effects on important child outcomes such as reductions in abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this initiative, ACF is instructed to adhere closely to evidence-based models of home visitation. ACF shall not incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

Within the amount for Projects of National Significance, the bill provides \$2,000,000 for the purposes of providing and promoting leadership training by and for families with children with disabilities, as described in section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families with children with disabilities. To maximize the sustainability of the outcomes of the leadership training supported by these funds, the Secretary shall distribute these funds as competitive grants to one or more national non-profit organizations with demonstrated capacity at the State and local level to foster and provide direct services to families with children with disabilities.

The bill provides a \$1,000,000 increase over the fiscal year 2008 level for the University Centers for Excellence in Developmental Disabilities, which may be used to provide a cost-of-living adjustment to existing centers and to establish new grants to work through partnerships with minority-serving institutions. These new grants, if awarded, will focus research, training and services on minority populations with disabilities.

The bill provides a \$1,500,000 increase over the fiscal year 2008 level for activities authorized under section 803C(b)(7)(A)-(C) of the Native American Programs Act (as added by the Esther Martinez Native American Languages Preservation Act of 2006).

With regard to the Community Services Block Grant (CSBG), ACF is directed to allocate \$500,000 of CSBG training and technical assistance funds for a national community economic development training and capacity development initiative. Successful implementation of community development programs requires significant investment in high-quality board and staff training and proven technical assistance. This funding will enable community action agency leaders to attain the professional skills needed to undertake projects to enhance their communities' future security through financing and implementing innovative housing, economic and community development partnerships.

The bill includes language clarifying Congressional intent regarding disposition of intangible assets—including loans and investments—acquired under the community economic development authority of the CSBG Act. The bill continues the policy in place since 1999 that establishes a regulatory period of up to 12 years after the end of the grant period. During that period, as the grantee receives repayments or program income from these loans or investments, the grantee is permitted to recycle these funds into other similar projects. After that time, the intangible assets and program income become the property of the grantee provided they are used in a manner consistent with the intent of the authorizing statute. The bill clarifies that recycled and repaid loan or investment funds or program income may be used in any low-income community for any eligible purpose under the law and is not restricted to the original target area, financing, or type of project for which the grantee was originally funded. The language applies not only to new grantees but also to grantees for whom the post-grant period has reached a point at which the disposition of intangible assets must be made.

Funds provided in the bill for the Rural Community Facilities program shall be used solely for the purpose of improving water and wastewater facilities in poor, rural communities. As in the past, these funds should be allocated to regional rural community assistance programs.

The ACF Office of Community Services is expected to remedy during fiscal year 2009 a failure (1) to report on progress made in remedying oversight deficiencies identified by the Government Accountability Office and (2) to comply with a fiscal year 2005 Congressional directive to implement a training and technical assistance needs assessment and delivery plan in consultation with CSBG State and local eligible entities.

The bill provides funds for Abstinence Education as defined in section 510(b)(2) of the Social Security Act and includes language precluding grantees who receive abstinence education funding from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. It also requires that information provided through abstinence education grants shall be scientifically accurate and comply with section 317P(c)(2) of the Public Health Service Act.

Further, the bill provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign and \$4,455,000 shall be available from section 241 Public Health Service Act evaluation funds to carry out evaluations of adolescent pregnancy prevention approaches. Finally, up to 5 percent of funds may be set aside for technical assistance and capacity-building, which shall be used to ensure that programs are using evidence-based curricula that comply with statutory requirements.

Within Program Administration, the bill includes \$1,500,000 for the National Commission on Children and Disasters. The funds included in this bill may be used for personnel, travel, and any other necessary expenses of the Commission. The Commission is expected to build on the evaluations of other entities and avoid unnecessary duplication, by reviewing the findings, conclusions, and recommendations of various commissions, Federal, State, and local governments, and nongovernmental entities as to the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies. ACF is requested to submit a report to the House and Senate Committees on Appropriations on the progress of the Commission within one year of its initial meeting. While Departmental funds will support the operations of the Commission, the Commission is expected to operate independently in order to provide unbiased recommendations to the President and the Congress.

PROMOTING SAFE AND STABLE FAMILIES

The bill includes \$345,000,000 in mandatory funds for the Promoting Safe and Stable Families program, which is the same as the fiscal year 2008 level and the budget request. The bill includes \$63,311,000 in discretionary funds for this program, which is the same as the fiscal year 2008 level and the budget request.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The bill includes \$5,050,000,000 for Payments to States for Foster Care and Adoption Assistance, which is \$17,000,000 below

the fiscal year 2008 level and \$46,000,000 below the budget request. The amount provided varies from the President's request because of the enactment of the Fostering Connections to Success and Improving Adoptions Act of 2008 and reflects updated estimates provided by the Department.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The bill includes \$1,491,343,000 for Aging Services Programs, which is \$77,908,000 above the fiscal year 2008 funding level and \$109,959,000 above the budget request.

Protection of Vulnerable Older Americans

Within the total of \$21,383,000 provided for the Protection of Vulnerable Older Americans, \$16,327,000 is for the Long-term Care Ombudsman Program and \$5,056,000 is for the Prevention of Elder Abuse, Neglect, and Exploitation Program.

Program Innovations

The bill includes \$18,172,000 for Program Innovations, which is \$3,517,000 more than the fiscal year 2008 funding level and \$14,746,000 less than the budget request. The Administration on Aging (AoA) is directed to include in the fiscal year 2010 and all future budget justifications a table of Program Innovations funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years.

Within the total for Program Innovations, funding is provided at no less than the fiscal year 2008 levels for national programs scheduled to be refunded in fiscal year 2009. Within these funds, the bill includes \$2,000,000 for the Senior Legal Hotlines/Helplines, which will provide an increase in the number of States in which these services are available for older Americans. The bill also includes \$1,000,000 to continue a 24-hour call center to provide Alzheimer's family caregivers with professional care consultation and crisis intervention.

In addition, within Program Innovations the bill includes \$5,000,000 for the Community Innovations for Aging in Place program, created by the Older Americans Act reauthorization in 2006. This funding will provide grants to community-based organizations to coordinate and deliver services to elderly residents living in naturally occurring retirement communities and other model aging in place initiatives. AoA is encouraged to ensure that these initiatives are coordinated with existing programming included in the Older Americans Act, including Aging and Disability Resource Centers, Nursing Home Diversion, and Evidence-Based Prevention activities.

AoA has worked to further civic engagement among older Americans, particularly through a Memorandum of Understanding with the Corporation for National and Community Service. AoA is urged to continue to advance the field of civic engagement, as authorized under section 417 of the Older Americans Act, by entering into additional partnerships with organizations that offer innovative and proven programs to enable older Americans to effectively meet critical social needs.

Aging Network Support Activities

The bill recommends \$41,694,000 for Aging Network Support Activities, which is \$10,105,000 more than the fiscal year 2008 funding level and \$28,561,000 more than the budget request. AoA is directed to include in the fiscal year 2010 and all future budget justifications a table of Aging Network Support Activities funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years. Within the funds provided, the bill includes \$1,719,000 for the Pension Counseling and Information Program, to increase training and technical support for the counseling projects and to maintain the number of regional counseling projects at six.

The bill also includes \$28,000,000 to continue national implementation of the Choices for Independence program. Funding is provided for this program in Aging Network Support Activities, as reflected in the reauthorized Older Americans Act, and is intended to build on national implementation activities already in place. In contrast, the Administration requested these funds within the Program Innovations account and limited this program to narrow trials in only a few States. The Choices for Independence program seeks to establish long-term care options for seniors so they can live independently in their own communities. The program will continue and expand existing AoA programs that focus on Nursing Home Diversion, Aging and Disability Resource Centers and Evidence-Based Disease Prevention activities. In implementing these activities, AoA is encouraged to continue its close partnership efforts with the Centers for Medicare and Medicaid Services, the National Institute on Aging, the Centers for Disease Control and Prevention, and other agencies.

AoA shall report to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 on the establishment of national standards that will be used to evaluate the Choices for Independence Program, including the performance measures and indicators States must use to track and report on the outputs and outcomes they achieve. AoA should include in future Congressional budget submissions, the number of people served by these programs, funding breakdowns for each component of the program, and on the progress States are making in implementing these activities.

The bill does not provide funding for the National Center on Senior Benefits Outreach and Enrollment. Section 119 of P.L. 110-275, the Medicare Improvements for Patients and Providers Act of 2008 provided \$17,500,000 to the AoA for Medicare enrollment assistance, including \$5,000,000 specifically to inform seniors about benefits available under existing Federal and State programs. Bill language has been included to allow the AoA to administer these funds.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$395,776,000 for General Departmental Management, including \$5,851,000 from Medicare trust funds. This total is \$41,762,000 above the fiscal year 2008 level and \$15,912,000 above the budget request. In addition, \$46,756,000 in program evaluation funding is provided. The bill also provides that \$1,000,000 shall be transferred, not later than 30 days after enactment of this Act, to the National Institute of Mental Health to administer the Interagency Autism Coordinating Committee (IACC), which will support the IACC's work authorized under the Combating Autism Act of 2006.

Office of the Secretary

The bill includes sufficient funds to continue the Area and National Poverty Centers at no less than the fiscal year 2008 level.

The Department of Health and Human Services (HHS) is expected to maintain support for the U.S.-Mexico Border Health Commission at the same level as in fiscal year 2008.

The HHS Secretary is directed to provide a detailed inventory of the Department's greenhouse gas emissions and a plan to reduce these emissions by December 31, 2009 to the Committees on Appropriations of the House of Representatives and the Senate.

According to the Centers for Disease Control and Prevention (CDC), healthcare-associated infections (HAIs) are one of the top ten leading causes of death in the United States, accounting for an estimated 99,000 associated deaths and \$20 billion in excess healthcare costs annually. HAIs are largely preventable. HHS is commended for its work in developing a national action plan with five year targets for reducing HAIs. The Department is directed to continue the HHS Steering Committee for the Prevention of HAIs, and associated workgroups, that it has established to coordinate prevention and implementation, research, information systems and technology, compliance and oversight, and public and provider outreach activities across the operating divisions of the Department.

To accelerate progress on preventing HAIs and to begin implementation of the national action plan, the bill includes nearly \$22,000,000 in additional funding over the fiscal year 2008 funding level for HAI-related initiatives within the Department. These increases include \$5,000,000 within the Office of the Secretary, \$7,500,000 within CDC and \$9,304,000 within the Agency for Healthcare Research and Quality (AHRQ). The Office of the Secretary shall use the additional \$5,000,000 to develop and implement a national campaign to empower consumers to be active participants in preventing HAIs; perform a comprehensive inventory of HAI data and databases; enhance prevention, surveillance, and research activities; improve integration of data across HHS systems; expand measures in CMS' Hospital Compare and improve regulatory oversight of hospitals and the hospital accreditation program; provide management support to the HHS Steering Committee for the Prevention of HAIs; and conduct other priority activities related to reducing HAIs. A description of how the funds provided to CDC and AHRQ shall be used is included in the explanatory statement under those operating divisions.

To ensure that greater attention to this problem also occurs at the State level, the bill includes language within CDC requiring States to certify to the HHS Secretary that they will submit plans for reducing HAIs by January 1, 2010 to be eligible to receive a full allotment in this Act under the Preventive Health and Health Services Block Grant. The bill also directs HHS to conduct a review of these State plans and report to the Committees on Appropriations of the House of Representatives and the Senate not later than June 1, 2010 regarding the adequacy of such plans for achieving State and national goals for reducing HAIs.

It is noted that although 27 years have passed since HIV/AIDS was first identified in the U.S., there has never been a national plan to guide the coordination of prevention, care, and treatment programs. Further, the U.S. currently requires foreign countries receiving assistance to combat HIV/AIDS to develop and implement a single coordinated national AIDS strategy. HHS is encouraged to develop and implement a single national

AIDS strategy to promote coordination among Federal agencies and State and local governments, set clear goals and benchmarks, and provide a basis for ensuring accountability.

Approximately 36 States have prescription drug repository programs, also known as prescription drug redistribution programs. These programs, often volunteer-driven, may save the health care system millions of dollars every year by allowing unused, unopened medications to be re-dispensed to patients who meet certain need-based criteria. Due to the potential for substantial savings that these programs have shown, HHS is directed to conduct a study of State drug repository programs, with recommendations for how the Federal government can assist States in implementing and expanding these programs. This study also should include an estimate of potential cost savings and identify best practices, including ways to maintain patient safety. HHS shall submit this report to the House and Senate Committees on Appropriations no later than January 1, 2010.

Due to the growing demand for, and lack of well-trained, social workers to serve a variety of needs for individuals, families, and communities throughout the nation, HHS is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within one year of enactment of this Act. This report shall analyze current workforce trends and gaps in incentives, and provide recommendations for the recruitment and retention of professional social workers.

The bill includes \$1,000,000 for the Interagency Working Group on Youth Programs, chaired by HHS. These funds shall be used to solicit input from young people, State children's cabinet directors, and non-profit organizations on youth programs and policies; develop an overarching strategic plan for Federal youth policy; and prepare recommendations to improve the coordination, effectiveness, and efficiency of programs affecting youth.

The bill provides \$7,000,000 for a Health Diplomacy Initiative in the Department of Health and Human Services. This health initiative will focus on training health care workers and providing other services in, but not limited to, Central and South America. This health diplomacy initiative will help control diseases such as HIV/AIDS, tuberculosis, and malaria by giving local residents the training they need to provide basic health care in Latin America and other underserved communities.

Trauma is the most important cause of morbidity and mortality among children and adolescents, accounting for nearly 16,000 deaths, 250,000 hospital admissions and 9 million emergency department visits annually. While the goal is to deliver optimal care to injured children so that they attain the best possible outcomes after serious trauma, many questions about what constitutes optimal care remain unanswered. This gives rise to the tremendous variations in care and settings we see today. The HHS Secretary is directed to conduct a national prospective study on the variation in trauma care for children and adolescents in order to understand how the organization and processes of treatment affect outcomes and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within six months of enactment of this Act that outlines how the Secretary will conduct this study.

The Assistant Secretary of Planning and Evaluation (ASPE) shall review the fiscal year 2008 awards under the home visitation

initiative administered by the Administration for Children and Families and shall assess, in consultation with the Office of Management and Budget and independent experts if necessary, whether these awards met the evidentiary standards for this initiative

specified in the explanatory statement for the Consolidated Appropriations Act, 2008. In addition, ASPE shall review any request for proposals for fiscal year 2009 awards for adherence to the evidentiary standards in this explanatory statement. ASPE shall report

its findings to the Committees on Appropriations of the House of Representatives and the Senate by September 30, 2009.

The bill includes \$2,854,000 for the following projects in the following amounts:

The bill includes \$5,283,000 for the effort to address health disparities issues in the gulf coast region.

The bill includes \$1,000,000 for the OMH, in conjunction with the Surgeon General and the Office of Women's Health, to conduct a national health provider education program to improve lupus diagnosis and treatment and reduce health disparities. OMH is encouraged to involve a wide array of public health, community, academic, medical, and industry organizations, including those working to improve medical curricula. OMH shall provide a report by May 1, 2009 on lupus, associated health disparities, and impact of the disease on the population to the Committees on Appropriations of the House of Representatives and the Senate.

Office of Women's Health (OWH)

The bill includes \$1,500,000 to expand the OWH violence against women prevention initiative. The additional funds above the budget request shall be used to enhance health care providers' understanding of domestic and dating violence, and to develop a coordinated public health response regarding the domestic violence issues.

The bill includes \$1,000,000 to continue the national lupus education campaign, in conjunction with the OMH and the Surgeon General, directed toward the general public and health professionals who diagnose and treat people with lupus.

Minority HIV/AIDS

The Office of the Secretary is expected to support activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, at no less than last year's funding level.

Embryo donation and adoption

Increasing public awareness of embryo donation and adoption remains an important goal. The bill provides \$4,200,000 for HHS's embryo donation and adoption awareness activities. The costs associated with embryo adoption may be hindering people from participating in embryo adoption. The medical procedures involved can be expensive and are not always successful. To address those challenges, the bill includes language allowing funds appropriated for embryo donation and adoption activities to be available to pay medical and administrative costs deemed necessary to facilitate embryo donations and adoptions. It is intended that funds in the bill be used for embryo donation for family building and/or embryo adoption and that eligibility not be limited based on the terminology used to describe the transfer of the embryo.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The bill includes \$64,604,000 for the Office of Medicare Hearings and Appeals, which is \$740,000 above the fiscal year 2008 level and \$740,000 below the budget request.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The bill includes \$61,231,000 for this activity, of which \$43,552,000 is provided in budget authority and \$17,679,000 is made available through the Public Health Service program evaluation tap. This level is \$670,000 above the fiscal year 2008 level and \$4,920,000 below the budget request.

OFFICE OF INSPECTOR GENERAL (OIG)

The bill includes \$45,279,000 for the Office of Inspector General, which is \$2,048,000 above the fiscal year 2008 level and \$779,000 below the budget request. Bill language is included requiring that at least forty percent of the funds provided be used only for investigations, audits, and evaluations pertaining to the discretionary programs funded in the Labor-HHS-Education Appropriations Act. The OIG should submit a report to the Committees on Appropriations of the House of Representatives and the Senate by March 1, 2009 describing the OIG workplan development process, the assessment of relative Federal risk in the discretionary programs funded in the Labor-HHS-Education Appropriations Act, and the process used to rank for action program requests from various executive and legislative branch offices. The OIG is directed to continue its investigation of contracting procedures at the Centers for Disease Control and Prevention and the agency's use of contract employees and report to the Committees on Appropriations of the House of Representatives and the Senate by June 1, 2009.

OFFICE FOR CIVIL RIGHTS

The bill includes \$40,099,000 for the Office for Civil Rights, of which \$3,314,000 is made available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. This level is \$5,800,000 above the fiscal year 2008 level and the same as the budget request.

RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS

The bill includes \$434,694,000 for retirement pay and medical benefits for commissioned officers, which is \$37,516,000 above the fiscal year 2008 level and the same as the budget request.

*PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND**(INCLUDING TRANSFER OF FUNDS)*

The bill includes \$1,397,795,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which is \$668,536,000 more than the fiscal year 2008 funding level and \$903,036,000 less than the budget request.

In order to accelerate progress in the procurement of medical countermeasures through Project BioShield and for pandemic influenza preparedness, the bill includes language transferring \$412,000,000 from the Project BioShield advance appropriations provided in the Department of Homeland Security Appropriations Act, 2004. Of this amount, \$275,000,000 is to fund the Biomedical Advanced Research and Development Authority (BARDA) and \$137,000,000 is for pandemic influenza preparedness and response activities.

Currently, there are large carryover balances in Project BioShield; approximately \$3,575,000,000 remains available in fiscal year 2009 from funds provided in fiscal year 2004. A significant reason for this carryover is that there are insufficient chemical, biological, radiological, or nuclear countermeasures ready for acquisition by Project BioShield into the Strategic National Stockpile. The funds provided in this bill are included to spur the development of these countermeasures from early discovery phases through the advanced clinical trials necessary for FDA approval. Without a greater investment in advanced research and development of these countermeasures, Project BioShield will not succeed.

The Secretary of Health and Human Services is directed to provide the Committees on Appropriations of the House of Representatives and the Senate monthly reports updating the status of actions taken and funds obligated in this and previous appropriations

bills for the Pandemic Influenza Preparedness activities; the Biomedical Advanced Research and Development Authority; and Project BioShield. These reports should be provided by no later than 15 days after the end of each month.

In addition, the Secretary of Health and Human Services, together with the Director of the Centers for Disease Control and Prevention, is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 180 days of enactment of this Act on the Department's current supply chain management strategies. This report shall include information on how supply chain management strategies can be improved in order to enhance both State and local preparedness in a complex, multi-tiered response.

DIVISION G—LEGISLATIVE BRANCH
APPROPRIATIONS ACT, 2009

TITLE I

Diversity in Hiring and Advancement.—While many Legislative Branch agencies have achieved reasonable diversity at the lower wage tiers, diversity levels are sharply lower among managers and executives. More can be done to maximize diversity in the workplace, especially in the executive ranks. All Legislative Branch agencies who have not done so are directed to adopt by May 31, 2009 a formal written policy, in accordance with all applicable Federal laws, to develop and institute an affirmative action plan with specific goals and objectives to further the ability of women, minorities, and individuals with disabilities to achieve balanced representation within the Legislative Branch workforce and management.

SENATE

The bill includes \$895,030,000 for Senate operations. This amount is \$63,334,000 above the current level and is \$45,867,000 below the budget request.

HOUSE OF REPRESENTATIVES

The bill includes \$1,301,267,000 for House operations. This amount is \$118,432,000 above the current level and is \$32,594,000 below the budget request.

Electronic Access to Hearing Documents.—To reduce costs and reduce the carbon footprint of the operations of the House of Representatives and expand public access to congressional information, committees of the House are encouraged to post their hearings online on the Government Printing Office web site, GPO Access. Online posting of hearings can help reduce the need for printing and storage of paper copies of hearing records and facilitate accessibility for congressional staff and the general public.

Expanded Hours for the House Fitness Center.—The physical and mental health of House staff is important. The Chief Administrative Officer of the House is asked to review the “extended hours” pilot program and if appropriate explore the possibilities of further extending the hours of operation of the fitness facility.

Expanded Hours for the Child Care Center.—Expanded hours of operation at the House Child Care Center need to be considered to accommodate employees who must work late hours. The Chief Administrative Officer of the House is asked to study the feasibility and costs associated with extending the hours of operation beyond the standard work day. This study should be completed and provided to the House Committee on Appropriations no later than June 30, 2009.

Child Care Center Playground.—The current playground at the House Child Care Center frequently overheats in the summer, uses space inefficiently, and lacks many child development tools that would benefit children at the Center. The Architect of the Capitol (AOC) and the Office of the Chief Administrative Officer (CAO) of the House should make the project a priority and develop a plan to ensure that the playground is ready by summer 2009. Accordingly, AOC and the CAO are asked to submit a report to the House Committee on Appropriations on the status of the playground within 30 days of enactment of this Act. The report should include a detailed work plan with specific dates of when the planning, design, and construction of the playground will be complete as well as the actions being taken to ensure that the playground is open by summer 2009.

Congressional Technology Coordination.—The House of Representatives needs a strategic and coordinated plan that will prepare for the future technology needs of the insti-

tution. A 2006 report commissioned by the Chief Administrative Officer and the Committee on House Administration, entitled Strategic Technology Road Map for the Ten Year Vision of Technology in the House of Representatives, provided a suggested structure for Information Technology evaluation and decision making. The Chief Administrative Officer, the Clerk, and the Sergeant at Arms are asked to prepare a report by June 30, 2009 on their efforts or plans to develop House-wide data-sharing standards; implement standard legislative document formats; address the increasing resource challenges of Member offices; and identify disparate systems throughout the institution that prevent it from taking advantage of economies of scale.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The bill provides \$4,626,000 for the Joint Economic Committee. This amount is \$228,000 above the current level and is the same as the budget request.

JOINT COMMITTEE ON TAXATION

The bill provides \$10,719,000 for the Joint Committee on Taxation. This amount is \$1,522,000 above the current level and is \$420,000 below the budget request.

OFFICE OF THE ATTENDING PHYSICIAN

The bill provides \$3,105,000 for the Office of the Attending Physician. This amount is \$314,000 above the current level and is \$7,000 above the budget request. The amount above the budget request provides an allowance for a Senior Medical Officer.

OFFICE OF CONGRESSIONAL ACCESSIBILITY
SERVICES

The bill provides \$800,000 for the Office of Congressional Accessibility Services. This is a successor office to the Special Services Office following enactment of the Capitol Visitor Center Act of 2008.

CAPITOL GUIDE SERVICE AND SPECIAL
SERVICES OFFICE

The bill provides \$9,940,000 for the Capitol Guide Service. This amount is available for the Architect of the Capitol to use as part of the Capitol Visitor Center appropriation due to the transfer of the Capitol Guide Service to the Architect of the Capitol following enactment of the Capitol Visitor Center Act of 2008.

STATEMENTS OF APPROPRIATIONS

The bill provides \$30,000 for Statements of Appropriations. This amount is the same as the current level and is also the same as the budget request.

CAPITOL POLICE

Salaries

The bill provides \$248,000,000 for salaries and benefits of the Capitol Police. This amount is \$15,782,000 above the current level and is \$21,223,000 below the budget request. The Capitol Police are expected to proceed with filling vacancies on the basis of management-determined priorities, and to provide the Committees on Appropriations notification of such determinations on a regular basis.

This level of funding will support the current staffing level of 1702 sworn and 414 civilian FTEs. In addition, increases in FTEs have been provided which are associated with the Library of Congress Police Merger for fiscal year 2009: 73 sworn, 24 sworn attrition, and 4 civilian support staff. An additional 10 sworn FTE have been funded related to maintaining the operations in the Cannon and Russell tunnels with the opening of the Capitol Visitor Center. The total authorized FTEs for fiscal year 2009 are 1799 sworn and 418 civilian.

It is noted that there is confusion and inconsistency concerning whether Capitol Po-

lice staffing authorization and utilization are reported as positions or FTEs. It is expected that budget submissions and agency reports use FTEs consistent with the OMB definition.

General Expenses

The bill provides \$57,750,000 for general expenses of the Capitol Police. This amount is \$8,972,000 above the current level and is \$6,681,000 below the budget request. It includes \$2,750,000 for the Capitol Police to begin migrating accounting services to the Library of Congress as part of an effort to move towards financial management cross-servicing for as many Legislative Branch agencies as practicable in order to achieve cost savings through the elimination of duplicative systems.

Vehicle Fleet.—There is concern about the size of the Capitol Police's overall vehicle fleet. The Capitol Police shall submit a vehicle analysis by April 30, 2009 justifying the overall size of its fleet, including motorcycles, and showing a detailed five year plan to manage the fleet. This plan should include an analysis of Home-To-Work vehicles, including justifications for this use, and an update on the Department's effort to utilize more energy efficient vehicles. The Department shall refrain from purchasing, leasing or acquiring vehicles without notifying the Committees on Appropriations until the Committees have reviewed the detailed five year plan.

ADMINISTRATIVE PROVISION

(INCLUDING TRANSFER OF FUNDS)

Section 1001 authorizes transfers between the Salaries and General Expenses accounts upon the approval of the Committees on Appropriations.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The bill provides \$4,072,000 for salaries and expenses of the Office of Compliance. This amount is \$730,000 above the current level and is \$236,000 below the budget request. It provides for 21 FTEs.

The Office of Compliance (OOC) should operate in a consistent, well-documented manner when dealing with regulated agencies, balancing compliance assistance with enforcement responsibilities. However, the OOC has not established clear documentation of the processes and criteria for issuing findings or citations, or for accepting agencies' proposed abatement plans. Furthermore, OOC has failed to establish a process for dispute resolution mechanisms for citations or technical disagreements. It is expected that the Office will act to establish documented procedures and continue to work to improve its communication with the regulated community. A report to the Committees on Appropriations is due within 60 days of enactment of this Act.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The bill provides \$44,082,000 for salaries and expenses of the Congressional Budget Office. This amount is \$6,776,000 above the current level and is \$1,342,000 above the budget request. It will fund an additional 15 FTEs required for health care analysis and other congressional priorities as well as fund the Congressional Budget Office's new responsibilities under the Emergency Economic Stabilization Act of 2008.

ARCHITECT OF THE CAPITOL

The total amount is \$11,546,000 above the current level and is \$4,320,000 below the budget request.

In addition, funds included under the Capitol Guide Service account are available to the Architect of the Capitol for the Capitol Visitor Center due to the transfer of the Capitol Guide Service to the Architect of the Capitol as part of the Capitol Visitor Center Act of 2008.

It is expected that any reprogramming of funds from the program, project and activity levels agreed to within this account by the Committees on Appropriations shall be subject to the normal reprogramming requirements.

Staff Tour Training.—Concerns have been raised about the quality and consistency of the training program for staff-led tours, known as the Congressional Historical Interpretive Training Program (CHIP). It is expected that improvements will be made to ensure this program is meeting expectations to enhance staff-led tours. The Chief Executive Officer for Visitor Services is directed to present within 30 days of enactment of this Act proposals for improving the program, without an increase in budgetary resources.

Hispanic and Asian American Exhibits.—There is continuing concern about the lack of representation of Hispanic and Asian American groups in the CVC, as well as African Americans, women, and Pacific Islanders. The Architect of the Capitol and the Chief Executive Officer for Visitor Services are directed to prepare a report within 90 days after enactment of this Act on the options and costs associated to remedy these omissions.

ADMINISTRATIVE PROVISIONS

Section 1101 provides for proceeds from certain recycling programs being applied to other environmentally friendly efforts. Section 1102 provides for the leasing of space for the Library of Congress by the Architect of the Capitol.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The bill includes \$412,680,000 for salaries and expenses of the Library of Congress, plus

\$6,350,000 in offsetting receipts. This amount is \$24,219,000 above the current level and is \$932,000 above the budget request. The bill includes specific amounts for designated purposes and provides \$7,511,000 in support of the National Digital Information and Infrastructure Preservation Program (NDIIPP).

The Inspectors General of the Legislative Branch participating in a financial system cross-servicing agreement with the Library's Office of the Chief Financial Officer are directed to select a single independent auditing firm to conduct the annual financial statement audits for the participating agencies. The Inspectors General of these agencies shall form a committee, chaired by the Library's Inspector General or their appointee, to facilitate the effort to select a common auditor.

Asian American and Pacific Islander Collection.—It is encouraging that the Library of Congress has committed to establish an Asian American and Pacific Islander (AAPI) Collection within the Asian Division. The goal of the AAPI collection would not only be to finally collect and catalogue the numerous materials already within the Library, but also to expand to a nationally coordinated effort to catalogue and build upon the resources from other collections. The AAPI Collection will be a valuable national resource to libraries, museums, archives, organizations and studies programs interested in the histories and cultures of the AAPI communities. Since the AAPI Collection is in its infancy, there are concerns about its future growth. The Library of Congress is directed to provide to the Committees on Appropriations of the House and Senate, no later than April 30, 2009, a detailed strategy for the development of the AAPI Collection, including expected timelines and funding proposals.

Child Care Center.—There is interest in ensuring access for low-income families to the Library's child care center. The Library of Congress is requested to work with the Library of Congress Child Care Association to review whether revenues and costs are aligned to provide for the lowest possible tuition operationally feasible. This review and a report should be provided to the Committees on Appropriations of the House and Senate by May 31, 2009.

Franklin Collection.—There continues to be support for the goal of bringing the Library's extensive 3,000 text collection of American books that were translated into Arabic, Persian, Pashtu, and Indonesian online in a digital format. To further the availability and use of this collection, the Library of Congress, Library Services is directed to devote the required resources to obtain copyright permission and bring this collection online in a digital format.

American Folklife Center.—The work of the American Folklife Center (AFC) of the Library of Congress is to preserve and present the cultural legacy of the nation. Central to this mission is its role in safekeeping major collections such as the Alan Lomax Collection. No less precious are other private collections recently acquired by the AFC that, taking up where Lomax left off, document America's folk, tribal and ethnic musical traditions from the 1960s forward to the present. A half century from now, such collections will be considered as important, and be as cherished by a new generation of Americans, as the Lomax recordings are today. The AFC is currently working to complete the preservation and digital conversion of these newer collections, which are essential to providing the nation with a complete and unbroken record of America's cultural and musical heritage. These efforts will provide American citizens with access to major cornerstones of twentieth century American

folk music documentation that collectively define the essence of America's cultural legacy to the world. Once the digital conversions are completed, the AFC will showcase these new collections and their accessibility to the nation through a series of activities including scholarly symposium focused on the new collections and on the history and legacy of the folk arts organizations that created them; musical performances by great folk artists documented in the collections; the creation of a traveling exhibit; and audio/video website enhancements to showcase portions of the new collections and publicize their arrival at the AFC. It is anticipated that the cost of this effort will be \$350,000.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The bill includes \$18,277,000, and an additional \$33,315,000 made available from receipts, for salaries and expenses of the Copyright Office. This amount is \$12,956,000 above the current level and is the same as the budget request.

Pre-1972 Sound Recordings.—The Register of Copyrights is directed to conduct a study on the desirability of and means for bringing sound recordings fixed before February 15, 1972, under federal jurisdiction. The study is to cover the effect of federal coverage on the preservation of such sound recordings, the effect on public access to those recordings, and the economic impact of federal coverage on rights holders. The study is also to examine the means for accomplishing such coverage. As part of this effort, the Register of Copyrights should publish notice of the study and provide a period during which interested persons may submit comments. The Register of Copyrights is to submit a report on the results of this study to the Committees on Appropriations of the House and Senate no later than two years after the enactment of this Act. The report should include any recommendations that the Register considers appropriate.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The bill includes \$107,323,000 for salaries and expenses of the Congressional Research Service within the Library of Congress. This is \$4,979,000 above the current level and is the same as the budget request.

Public Access to Legislative Data.—There is support for enhancing public access to legislative documents, bill status, summary information, and other legislative data through more direct methods such as bulk data downloads and other means of no-charge digital access to legislative databases. The Library of Congress, Congressional Research Service, and Government Printing Office and the appropriate entities of the House of Representatives are directed to prepare a report on the feasibility of providing advanced search capabilities. This report is to be provided to the Committees on Appropriations of the House and Senate within 120 days of the release of Legislative Information System 2.0.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

The bill includes \$68,816,000 for the salaries and expenses of the National Library Service for the Blind and Physically Handicapped. This amount is \$1,893,000 above the current level and is the same as the budget request. It is noted that the contract award for Digital Talking Books came back at a significantly lower cost than anticipated while still allowing the project to move forward on its expected timeline and providing more players and titles than originally planned.

ADMINISTRATIVE PROVISIONS

Section 1201 provides for expenses related to official representation for the incentive awards program. Section 1202 provides obligation authority for various Library programs. Section 1203 provides authority to transfer funds between Library accounts. Section 1204 provides authority for members of the Abraham Lincoln Bicentennial Commission to serve through the life of the Commission.

GOVERNMENT PRINTING OFFICE CONGRESSIONAL PRINTING AND BINDING (INCLUDING TRANSFER OF FUNDS)

The bill includes \$96,828,000 for printing and binding of congressional documents at the Government Printing Office. This amount is \$7,053,000 above the current level and is \$1,100,000 below the budget request. It will provide the funding required to pay the FY 2007 and FY 2008 shortfall as well as fund the FY 2009 revised estimate for congressional printing.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,744,000 for the salaries and expenses of the Superintendent of Documents. This amount is \$3,831,000 above the current level and is \$4,682,000 below the budget request.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The bill provides \$4,995,000 for the Government Printing Office Revolving Fund. This is \$4,995,000 above the current level and is \$28,005,000 below the budget request.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The bill includes \$531,000,000 in direct appropriations for the Government Accountability Office (GAO), plus \$7,635,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations and rental of space in the GAO building. This amount is \$31,252,000 above the current level and is \$7,152,000 below the budget request.

Technology Assessment Studies.—Funding continues to be provided for GAO to conduct technology assessment studies that provide early indications of the probable beneficial and adverse impacts of the application of technology and develop other related information that may assist the Congress during deliberations on pending legislation. GAO is reminded that for the assessments to be of benefit to the Congress, GAO must reach out and work with both bodies of Congress regarding these studies.

Comptroller General Annuity.—The lifetime salary annuity provided to the Comptroller General after completion of a 15-year term is extravagant, particularly in the current economic climate. GAO is directed to contract with the National Academy of Public Administration for the latter to conduct an independent review of the structure and compensation of the position and determine whether the existing lifetime salary annuity is necessary to preserve the Comptroller General's independence. The review should include a comparison of the Comptroller General annuity to the retirement benefits offered for other federal positions of a similar character where independence is a key concern, and explain whether the Comptroller General's position truly requires a full-salary annuity benefit to preserve independence if other positions of a similar character do not. The results of this review are to be provided to the Committees on Appropriations no later than July 31, 2009.

ADMINISTRATIVE PROVISIONS

Section 1301 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The bill includes \$13,900,000 for payment to the Open World Leadership Center Trust Fund. This is \$4,922,000 above the current level and is the same as the budget request.

Open World Funding.—A large portion of the Open World program is devoted to judicial issues, issues of interest to the State Department, and issues related to the legislative process. The strain on Legislative Branch resources from continuing to fund this program is difficult to sustain. Since significant emphasis is being placed on judicial issues and on issues of interest to the State Department, a shared funding for this program would be appropriate. Therefore, the Open World Leadership Center Board of Trustees is directed to work with the Department of State and the Judiciary to as-

sess the feasibility of shared funding for this program. The Board of Trustees is expected to pursue this avenue of potential shared funding and report back to the Committees on Appropriations of the House and Senate no later than May 30, 2009.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The bill includes \$430,000 for the John C. Stennis Center for Public Service Training and Development. This amount is \$1,000 more than the current level and is the same as the budget request.

TITLE II—GENERAL PROVISIONS

The bill includes nine general provisions carried in prior fiscal years. Section 210 prohibits Inspectors General of the Library of Congress and the Architect of the Capitol from using appropriated funds to purchase, maintain, or carry firearms.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION H
DEPARTMENT OF STATE, FOREIGN OP-
ERATIONS, AND RELATED PROGRAMS
APPROPRIATIONS ACT, 2009

TITLE I

DEPARTMENT OF STATE AND RELATED
AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,360,318,000 for Diplomatic and Consular Programs, which is \$819,231,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$3,951,000 below the request. Of these funds, \$4,243,318,000 is for ongoing operations, including public diplomacy activities, and \$1,117,000,000 is for Worldwide Security Protection. The bill separates the functions funded under this heading to provide more transparency. The Department of State may reprogram funds as required, subject to consultation with, and notification of, the Committees on Appropriations. The functions are allocated as follows:

Human resources: \$2,118,598,000 for all American salaries at overseas and domestic United States diplomatic missions.

Overseas programs: \$1,548,617,000 for the operational programs of regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for fiscal year 2009 will support 267 United States embassies, consulates, and other diplomatic posts worldwide.

Diplomatic policy and support: \$585,078,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination and program management among United States missions abroad.

Security programs: \$1,108,025,000 for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. In addition to WSP programs, \$134,927,000 is included within the Human Resources function, equal to the request, for salaries to make up the total amount in the bill for security protection worldwide.

In addition, the bill includes authority to collect \$8,110,150 from certain authorized fees and payments. The Department of State also projects that \$2,124,458,000 will become available in fiscal year 2009 from authorized fee revenues for the Border Security Program of the Department of State, including an increase of \$64,396,000 to continue to improve passport processing operations.

The bill includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the "Emergencies in the Diplomatic and Consular Service" heading for emergency evacuations and rewards payments, as authorized.

Enhancing Diplomatic Staffing and Readiness

Increasing the Department of State personnel capacity and capabilities is a priority in this bill. Diplomatic staffing increases resulting from the Diplomatic Readiness Initiative undertaken by the Department of State and the Committees on Appropriations between fiscal years 2002 through 2004 were depleted due to the Department's decision to move more positions to Iraq and Afghanistan. This has led to vacancies at many posts overseas and has inhibited necessary training of diplomatic personnel in critical lan-

guages. The bill provides funding to fill vacant positions, expand critical language training and place more diplomats in countries where there is a growing United States strategic interest. Within the funds made available in this Act, and in Public Law 110-252, the Secretary of State should have sufficient resources to hire the 500 positions proposed in the fiscal year 2009 request. In this process, the Secretary is urged to further reduce domestic positions to bolster areas critical to United States interests around the world, such as public diplomacy and consular services.

There has been a longstanding concern with the disparity in pay between rank and file Foreign Service Officers (FSOs) and senior FSOs, whose pay is tied to the locality paid in the District of Columbia. This disparity has damaged morale, caused attrition in the Foreign Service and made it difficult to attract new hires. The bill provides \$41,000,000, as requested, to eliminate this disparity by paying eligible members of the Foreign Service up to the amount of the locality-based comparability payment that would be payable as if their official duty station were in the District of Columbia. The relevant authorizing committees are urged to pass legislation expeditiously authorizing the use of these funds.

Worldwide Security Protection

The bill provides \$1,117,000,000 for Worldwide Security Protection.

Security training.—The fiscal year 2009 budget request included \$17,551,000 to develop a consolidated training center for the Bureau of Diplomatic Security to provide expanded hard and soft skills security training to foreign affairs community members serving in increasingly dangerous environments overseas. The Secretary of State shall consult with the Committees on Appropriations in advance of funds being made available for this purpose and shall provide the Committees with regular updates on the status of the project.

Visa and passport security plan.—The Department of State's ongoing work to both detect and disrupt terrorist travel continues to be supported in this bill and funds are included to support additional investigative agents and support staff personnel to enhance visa and passport security.

Funding Directives

Cultural heritage.—The Department of State is directed to provide \$6,500,000 to preserve cultural heritage through Department of State programs and activities, of which \$5,500,000 shall be for the Ambassador's Fund for Cultural Preservation including for at least two large projects of approximately \$500,000 each, and \$1,000,000 shall be for the Cultural Antiquities Task Force. The Department of State should consult with the Committees on Appropriations prior to the obligation of funds.

Human rights monitoring.—The Secretary of State is directed to increase the number of human rights officers assigned to Beijing, People's Republic of China, and submit a report to the Committees on Appropriations not later than 90 days after enactment of this Act on these efforts.

Intelligence and research.—The bill includes sufficient funding to support the fiscal year 2009 request for the Bureau of Intelligence and Research. In addition, section 7034(1) makes available \$5,000,000, from funds appropriated under the "Economic Support Fund" heading to continue the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII).

Iraq diplomatic operations.—The Department of State is strongly urged to regularize the planning and budgeting for diplomatic

operations in Iraq, to include rightsizing of personnel, and the fiscal year 2010 budget request should include funding for ongoing functions.

IT security and coordination.—The Department of State is directed to provide sufficient funds for IT security programs, and, through a consultative process, to improve coordination of IT and cybersecurity programs with other United States Government agencies, particularly the United States Agency for International Development (USAID) and the Department of Defense.

Monitoring of military training and equipment.—While considerable effort is made by the Department of State to vet candidates for United States military training, effectiveness varies significantly among embassies and there have been gaps and weaknesses. In addition, little is done to track the uses of equipment, including weapons and ammunition, which is provided to foreign forces. The bill provides \$2,000,000 above the request to the Bureau of Democracy, Human Rights, and Labor for these purposes, which continues an initiative begun in fiscal year 2008. These funds are subject to prior consultation with the Committees on Appropriations.

Public diplomacy.—The bill includes a total of \$394,806,000 for public diplomacy, including \$264,169,000 for programs and \$130,637,000 for salaries under this heading, and an additional \$11,000,000 is available in fee revenue generated by the Border Security Program, equal to the request.

Soft targets.—The Department of State shall provide \$25,500,000 for security enhancements to soft targets such as overseas schools and residential compounds. Additional funds should be used in countries and regions impacted by political instability.

Special representative and policy coordinator for Burma.—The Department of State shall provide necessary administrative expenses, including salary and travel, for the Policy Coordinator for Burma, as authorized by section 7 of the Tom Lantos Block Burmese JADE (Junta's Anti-Democratic Efforts) Act of 2008 (Public Law 110-286).

Tibet.—The Secretary of State should ensure that the Department of State, the USAID, and the Broadcasting Board of Governors (BBG) allocate funds provided in this bill for Tibetan programs in a manner that reflects the commitment of the United States Government to the Tibetan people in the areas of democracy promotion, refugee assistance, scholarships, exchange programs, and radio broadcasts in Tibet.

The Department of State shall provide up to \$1,000,000 to establish a Tibet Section within the United States Embassy in Beijing, People's Republic of China for the purposes of following political, economic, and social developments inside Tibet, including Tibetan areas of Qinghai, Sichuan, Gansu, and Yunnan provinces, until such time as a United States Consulate in Tibet is established. This section shall have the primary responsibility for reporting on human rights issues in Tibet, shall work in close cooperation with the Office of the Special Coordinator for Tibetan Issues, and the Tibet Section Chief should be of senior rank. In addition, \$1,000,000 is recommended to support the Special Coordinator for Tibetan Issues.

Trafficking in persons.—Sufficient funding is provided to increase the number of personnel in the Office to Monitor and Combat Trafficking in Persons to respond to the growing worldwide problem of human trafficking.

Other Issues and Directives

Adoption task force.—The Governments of Vietnam and Guatemala have recently restricted adoptions of orphans by families in

the United States until new regulations can be developed, and thousands of adoptions already in process are being required to undergo further investigation or have been halted altogether. The Department of State and the Department of Homeland Security are directed to establish a temporary task force similar to the one employed in Cambodia in 2001 to accommodate the increased workload and assist in the resolution of outstanding issues. The Secretary of State shall report to the Committees on Appropriations not later than June 1, 2009, on actions taken and overall progress in negotiating new bilateral agreements.

Consular affairs reform.—The bill includes a provision, section 7006, requiring that all Inspector General recommendations regarding the Department of State's Passport Information Electronic Records System are implemented. In addition, the Department of State should examine best practices to maintain a high standard of personal privacy for all information shared with other agencies.

Consular services demonstration.—The Department of State should report on the implementation of a demonstration program to expand access to consular services through the use of alternative interview techniques such as videoconferencing or mobile consular units as authorized by section 565 of Public Law 110-161.

Disability coordinator.—In order to ensure the integration of people with disabilities in policies, programs, activities, outreach and staff opportunities, the Department of State should establish a dedicated, full-time Disability Coordinator and consult with the Committees on Appropriations not later than 90 days after enactment of this Act on efforts to address this issue.

Foreign Service Institute.—The Director of the Foreign Service Institute is urged to develop a program that educates United States diplomats and foreign service officers on the major world religions and provides training in techniques of interfaith dialogue and conflict resolution.

Interagency task force.—The bill includes funds to continue the operation of a United States Government Interagency task force to continue the monitoring of the United Nations headquarters renovation project.

Management.—With the consolidation of oversight for Department of State operations and foreign assistance programs under the jurisdiction of one appropriations subcommittee, the lack of coordination within the Department between budget, policy and planning related to assistance programs and operations has come into focus. As additional resources are requested to expand diplomatic staff and training, the Department of State should seek to more effectively synchronize operational and foreign assistance funding and programs.

The Department of State's top priority must be to meet the personnel requirements of its traditional diplomacy functions. The Administration is encouraged to improve existing frameworks, procedures and regulations, including those at the National Security Council, which will bolster the Department of State and USAID's responsibility and oversight of United States diplomacy and foreign assistance.

Minority recruitment.—The bill includes funds requested to continue the educational partnerships focused on recruiting and preparing students from various institutions with large minority populations for positions in the Foreign Service. These programs assist the ongoing efforts to increase minority hiring and diversity by facilitating the preparation of non-traditional and minority students for careers in the Foreign Service and the Department of State.

Office of Defense Trade Controls Licensing.—The Secretary of State should ensure that

the Office of Defense Trade Controls Licensing has the necessary budgetary resources and staff to fulfill its responsibilities in a timely and effective manner.

Saudi Arabia.—The Secretary of State is directed to monitor the implementation of the Government of Saudi Arabia's policies relating to religious practice and tolerance, announced in July 2006, and make these issues a regular part of the United States-Saudi Arabia Strategic Dialogue. The Secretary of State is further directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on the progress and issues raised through this dialogue.

Science programs.—The Department of State is encouraged to sustain support for the variety of science fellowship programs and to increase the science and technology capacity within the Department of State.

Western Hemisphere Travel Initiative (WHTI).—The Secretary of State is directed to continue to monitor implementation of the WHTI according to the statutory deadline of no earlier than June 1, 2009, and, as needed, to increase temporary staffing to quickly respond to increases in demand for passports or passport cards. The Department of Homeland Security and the Department of State are directed to provide quarterly briefings to the Committees on Appropriations on progress being made in meeting these requirements.

CIVILIAN STABILIZATION INITIATIVE

The bill provides \$45,000,000 under this heading for the Civilian Stabilization Initiative (CSI). In addition, \$30,000,000 is provided under title II, for a total of \$75,000,000 in this bill to stand-up, equip and deploy a coordinated civilian response capacity at the Department of State and USAID. These funds are in addition to \$65,000,000 provided in Public Law 110-252.

Funds made available for CSI in fiscal year 2009 are to be allocated only for the active and standby response corps and to support the operations of the Office of the Coordinator for Reconstruction and Stabilization. In total, \$140,000,000 is available for this initiative in fiscal year 2009, which is \$108,631,000 below the request.

Within the funds made available for CSI in fiscal year 2009, including supplemental funds, up to \$23,014,000 may support the administrative expenses for the Office of the Coordinator for Reconstruction and Stabilization.

The bill includes a proviso requiring the Secretary of State and the USAID Administrator to submit a coordinated joint spending plan and integrated implementation strategy for funds made available in fiscal years 2008 and 2009 for the CSI not later than 60 days after enactment of this Act.

The President may exercise existing transfer authority provided in the Foreign Assistance Act of 1961 and this Act only to support an actively deployed civilian response corps and not for the regular operations of this initiative, after consulting with and notifying the Committees on Appropriations. The President should be judicious in the use of this authority.

The Department of State, in consultation with USAID, is directed to submit in writing to the Committees on Appropriations not later than 180 days after enactment of this Act, a clarification of the relationship between the CSI and: (1) existing international disaster response capabilities of the United States Government and funding sources (including under the "International Disaster Assistance" and "Transition Initiatives" headings), and (2) the Department of Defense disaster response capabilities, assets and authorities.

Every program for which funding is enumerated in the previous table is established pursuant to an act of Congress; is a program for which funding is authorized by an act of Congress; or is included in the budget request for fiscal year 2009.

Funding is included above the prior year level in the Fulbright Program, Gilman International Scholarship Program, English Language Programs, and Educational Advising and Student Services to expand opportunities for United States students to study abroad. Additional resources should be used to increase direct grants to students, replicate existing capacity in targeted regions at quality overseas educational institutions, especially in developing countries, and engage United States educational institutions to reduce barriers to study abroad.

Taking into account current programs that support these goals and proposed legislation, the Department of State should develop a coordinated strategy to expand exchange programs to reach a greater number of Americans and foreigners from non-traditional backgrounds, particularly low income and minority populations. This strategy should inform the Administration's planning and budgeting in the near and long-term to expand exchanges and to better focus on interrelated advantages of existing programs which will ultimately benefit United States public diplomacy goals.

The Department of State should continue support for several ongoing international exchange programs with Eurasia and Eastern Europe, and the Muskie Graduate Fellowship program. In addition, the Department of State is expected to continue funding for the Future Leaders Exchange programs; the American-Serbia and Montenegro Youth Leadership Exchange; the Junior Faculty Development Program; the Language, Technology, Math and Science Exchange; citizen exchange activities of Sister Cities International; cultural exchange programs in music and the arts; and increased exchanges with Africa and countries with significant Muslim populations.

Latin America, Central America, and the Caribbean.—Expanded exchange programs in the Western Hemisphere are supported, with an emphasis on indigenous and other minority populations, including an additional \$3,000,000 to continue exchange programs in Central America, to be allocated as follows: \$1,250,000 for English Access Microscholarships, \$1,250,000 to continue the Community College Program, \$250,000 for undergraduate Opportunity Grants, and \$250,000 for summer institutes at United States universities.

The Department of State is directed to continue the development of expanded cultural, educational, and professional exchanges with the Caribbean.

Women and exchanges.—The Department of State is urged to fund professional exchanges for women in areas relating to business development, trade, leadership, and private and public sector management to enhance the economic development of participants and their countries.

Youth Exchange and Study Program.—The bill provides \$23,000,000 to support the goals of this program and encourages its growth in countries with significant Muslim populations, where the perception of the United States faces the greatest challenges. In commemoration of the fifth anniversary of the program and in recognition of the impact of the program in promoting dialogue, increasing understanding and enhancing cultural diplomacy between the United States and foreign countries, it is recommended that the program be named in honor of its originators, subject to prior consultation with the Committees on Appropriations.

One-time International Exchange Grant Program.—The bill provides \$6,000,000 for one-time competitive grants for international exchanges. Grants shall address issues of mutual interest to the United States and other countries, consistent with the program criteria established in Public Law 110-161. Programs shall support the actual exchange of people and should benefit a population that is not being addressed through existing authorized exchanges. The Department of State shall submit a report of those organizations that are eligible for a grant and, not later than September 1, 2009, submit a report to the Committees on Appropriations describing the grant recipients and intended use of funds.

Programs which received funding under this one-time grant program in fiscal year 2008, or which were listed in the explanatory

statement but did not apply, are not listed for consideration in fiscal year 2009. Programs listed in the fiscal year 2008 explanatory statement that applied, but did not receive funding, also are not listed but should be considered eligible for the fiscal year 2009 program. The Department of State is encouraged to consider new proposals for one-time funding from previously funded grantees within discretionary funding if they meet appropriate guidelines. Exchange programs eligible for consideration for this competitive program shall include:

Concordia College, for intensive critical language and cultural immersion exchange programs.

Castleton State College, for international service-learning exchange programs.

KIDmocracy, for student exchange with Egypt on democracy and governance.

Hofstra University, for critical language exchange programs.

Korean American Empowerment Council, for exchanges with the Republic of Korea.

Marquette University, for exchanges between United States and Liberian officials.

New Mexico State University/Youth Works International, for bringing young leaders from developing countries to the Gila Wilderness for land management training.

Pasadena Sister Cities Committee, for student exchanges with China.

The American Foundation for Tibetan Cultural Preservation, for cultural exchanges.

Vermont Law School, for an exchange program with China to address environment, energy, and related governance issues.

REPRESENTATION ALLOWANCES

The bill provides \$8,175,000 for Representation Allowances, which is \$66,000 above the fiscal year 2008 level and the same as the request.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The bill provides \$22,814,000 for Protection of Foreign Missions and Officials, the same as the fiscal year 2008 level and \$4,814,000 above the request. The Department of State is directed to prepare and submit a report not later than 60 days after enactment of this Act and every six months thereafter on the amount of claims for extraordinary protective services that have been submitted by eligible jurisdictions and certified as meeting the program requirements and the amount of unobligated funds available to pay such claims.

Of the amount provided, \$801,344,000 is for operations, maintenance and construction, \$770,000,000 is for priority worldwide security upgrades, acquisition, and construction, and \$135,225,000 is for the overseas facilities construction program of USAID. The comparable level for fiscal year 2008 includes \$75,000,000 appropriated under the "Capital Investment Fund of the United States Agency for International Development" heading.

The bill provides funding for USAID's overseas facility construction program under this heading, rather than under USAID's

"Capital Investment Fund" heading, as requested and as provided in fiscal year 2009. The Department of State and USAID are directed to work in concert to manage overseas facilities to more effectively and efficiently meet United States foreign affairs objectives. Coordination should include worldwide facilities assessments, planning, requests for funding, and implementation of facilities construction and maintenance activities.

The Secretary of State is directed to submit an annual plan on the joint requirements of the Department of State and USAID, including planned facilities upgrades and new construction for each fiscal year. The Secretary of State also is directed to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on a plan to address maintenance costs.

The Under Secretary for Management shall consult with the Committees on Appropriations on a regular and ongoing basis on the design of any proposed self-financed New Embassy Compound.

Section 7034(i) provides that \$2,000,000 from funds available under this heading shall be for the Capital Security Cost-Sharing contribution of the Library of Congress. The Government Accountability Office (GAO) is requested to examine the utility of overseas facilities for the Library of Congress and report to the Committees on Appropriations not later than August 1, 2009, including recommendations on the space needed and what efficiencies can be made while maintaining the Library's resource acquisition mission.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

(INCLUDING TRANSFER OF FUNDS)

The bill provides the funds under the heading for emergency evacuations and for authorized rewards payments.

The bill provides \$5,000,000 for the Buying Power Maintenance Account to manage exchange rate losses in the cost of Department of State operations overseas. The amount provided is \$5,000,000 above both the fiscal year 2008 level, excluding supplemental appropriations, and the request. The Secretary of State is urged to include a request for funding in this account in future budget requests.

REPATRIATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,353,000 for the Repatriation Loans Program Account, which is \$78,000 above the fiscal year 2008 level and the same as the request. Of this amount, \$678,000 is for the Direct Loans Subsidy and \$675,000 is for administrative expenses.

The bill includes language allowing funds under the heading for administrative expenses to be transferred to, and merged with, "Diplomatic and Consular Programs".

CONTRIBUTIONS TO INTERNATIONAL
ORGANIZATIONS

The bill provides \$1,529,400,000 for Contributions to International Organizations, which is \$185,971,000 above the fiscal year 2008 level and the same as the request. This is in addition to \$75,000,000 provided in Public Law 110-252.

The Office of Management and Budget is directed to request sufficient funds to pay annual assessed dues and any accumulated arrears to international organizations, and the Department of State is encouraged to evaluate the benefit of United States membership on an annual basis.

The decision to incorporate the United Nations (UN) Procurement Task Force (PTF) into the Office of Internal Oversight Services (OIOS) must not result in a diminished commitment by the UN to continue effective fraud and corruption investigations. Over the past three years, the PTF has been effective by identifying more than 20 significant fraud and corruption schemes in cases with an aggregate contract value in excess of \$630,000,000. The results of the PTF (and the Oil for Food investigations and prosecutions) underscore the need for the UN to be vigilant in protecting the integrity of donor funds. Eighty-five percent of UN procurement supports peacekeeping operations, and according to GAO, peacekeeping field procurement has not been effectively reformed and remains a high-risk area for fraud and abuse.

The UN should affirm its commitment to a strong oversight body, which is independent and resistant to retaliation by UN employees and their respective governments. The Department of State is directed to make procurement reform a top priority at the UN and to ensure that sufficient resources are made available for vigorous procurement oversight and investigation capabilities.

The Department of State is directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on the voting practices of UN member states for the current and past three years on matters regarding Iran, Israel, Sudan, and Zimbabwe, as well as on the reform efforts of the UN.

CONTRIBUTIONS FOR INTERNATIONAL
PEACEKEEPING ACTIVITIES

The bill provides \$1,517,000,000 for Contributions for International Peacekeeping Activi-

ties, which is \$294,483,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$20,000,000 above the request. This amount is in addition to \$150,500,000 provided in Public Law 110-252. The bill includes language (section 7051), as requested by the President, to adjust the authorized level of United States assessments for peacekeeping activities for calendar year 2009 and prior years from 25 percent to 27.1 percent, consistent with the level set in fiscal year 2008 (Public Law 110-161).

The Department of State is directed to provide full funding for the United States assessed contribution to the UN/African Union Hybrid operation in Darfur (UNAMID). The Department shall work with members of the Security Council and countries contributing troops, police, personnel, and equipment to UNAMID, in addition to interested non-governmental organizations, to ensure full and swift deployment. The Department of State should also ensure that UNAMID personnel receive training on prevention of, and response to, violence against women.

The Department of State is directed to support oversight of peacekeeping missions by the UN's OIOS to identify waste, fraud and abuse, including sexual abuse within every UN peacekeeping mission, and submit to the Committees on Appropriations a performance report on the progress of these efforts.

INTERNATIONAL COMMISSIONS

The bill provides funding to fully meet United States treaty obligations to international commissions in fiscal year 2009 and recognizes that funds are requested under the Department of State as a result of international treaties. However, the Secretary of State is encouraged to examine efficiencies in operations and equipment that could be achieved with other United States Government agencies.

INTERNATIONAL BOUNDARY AND WATER
COMMISSION, UNITED STATES AND MEXICO
SALARIES AND EXPENSES

The bill includes \$32,256,000 for the Salaries and Expenses account of the Commission, which is \$2,072,000 above the fiscal year 2008 level and the same as the request.

The bill includes \$43,250,000 for construction, which is \$44,459,000 below the fiscal year

2008 level and \$1,000,000 below the request. Funds made available under this heading shall be allocated in the following manner:

Funding made available in fiscal year 2009 under this heading shall be allocated to the following activities in the amounts designated in the table below, subject to the requirements of section 7019 of this Act:

¹ Budget requested funding as a separate account.

The bill includes sufficient funding, including funds provided in Public Law 110-252, and funds provided in Public Law 110-329, in fiscal year 2009 to maintain broadcasting in languages services at the fiscal year 2008 program levels which the BBG proposed to reduce or eliminate in the fiscal year 2009 request. It is recognized that international broadcasting conditions and costs are variable and that estimates for maintaining language services may escalate over the course of a fiscal year due to exchange rate losses or other circumstances. The BBG is directed to notify the Committees on Appropriations of any such modifications to language service levels recommended in the table above for fiscal year 2009.

Sufficient funds are available in fiscal year 2009 to continue VOA and RFA Tibetan broadcasts at the fiscal year 2008 surge levels. Section 7071(c)(3) of the bill directs not less than \$8,000,000 for broadcasting into North Korea through RFA Korea Service and VOA Korea Service.

The BBG is encouraged to continue its ongoing efforts to improve audience reach by utilizing the most effective means of transmission. However, going silent in many critical languages and regions is not supported. In addition, there is concern with the dismantling of shortwave capacity. The BBG should re-examine the capabilities of shortwave radio and continue to deploy it where it is determined to be most effective, particularly to countries where there is limited or no access to independent media.

The BBG is encouraged to explore the potential of digital shortwave technology as a means of delivering high-quality transmissions at low cost to millions of listeners. The BBG also is encouraged to consider whether existing English language broadcast programming can be used by VOA, if authorized standards are met.

The bill includes a provision, section 7041, intended to strengthen transparency, integrity and accountability concerning the content of broadcasts to the Middle East. Programs supported under this heading are intended to reach countries where fair and unbiased local media is limited and therefore broadcasting a variety of views is required. The BBG should continue to pursue free and fair broadcasting, and in particular provide many points of view to maintain balanced reporting. The Board is directed, in conjunction with the MBN, VOA, and RFE/RL, to make public English transcripts on a case by case basis if requested by the Committees on

Appropriations. Sufficient funds are included to continue the transparency directives begun in fiscal year 2008 regarding Alhurra.

Thus, funds under this heading shall not be subject to prior approval by the Department of State or USAID or administrative or management surcharges, and minimal expenses, if any, should be charged to general Department of State operating expenses. Further, the NED should not be precluded from competitively bidding on democracy, human rights, and rule of law grant solicitations.

The Peace Corps' strategy guiding its geographic distribution of volunteers should be examined in light of shifting strategic interests, increasing costs of programs, and limited resources. The Peace Corps did not respond adequately to the report required in the explanatory statement accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161). In addition to the annual budget justification, the Peace Corps shall submit the required report, not later than 90 days after enactment of this Act, which shall include a detailed description of the criteria used to assign volunteers on a country-by-country basis.

(INCLUDING TRANSFER OF FUNDS)

Allocation of funding.—The bill includes \$875,000,000 for the MCC in support of its goals to reduce poverty and promote sustainable economic growth and democracy through country compacts. By 2008, the average had almost tripled to \$494,666,667.

Between fiscal years 2004-2008, Congress appropriated \$7,500,000,000 for the MCC for 18 country compacts. Of this amount, only \$353,602,831 had been disbursed by the end of fiscal year 2008. In an effort to ensure that the MCC does not become overextended, that existing compacts are meeting their goals, and future compacts are of a manageable size, the MCC is urged to limit compact size to not more than \$350,000,000 in fiscal year 2009. There is also a concern that threshold programs are not meeting their targets, and that a review of the efficacy of these programs is needed before additional threshold programs are begun. The MCC shall consult with the Committees on Appropriations prior to implementing new threshold programs.

Compact implementation.—Several compacts are scheduled to be completed in 2010. Due to delays in implementation, several of them may not complete their programs within the five-year compact time limit. The MCC shall consult with the Committees on Appropriations on the status of the compacts on a regular basis. The MCC shall notify the Committees on Appropriations immediately if the compact program will not be completed, in order to allow for consideration by Congress of an extension of the five-year time limit.

Contracting and procurement.—The MCC is directed to provide a report to the Commit-

Controller Staffing and Training.—The bill requires FAA to transmit an annual update to the controller workforce plan by March 31, 2009, and reduces the appropriation by \$100,000 per day each day the report is late. The FAA is directed to include facility-by-facility data as well as a new benchmark for each facility for evaluating the proportion of certified controllers to controllers-in-training and developmental controllers. The agency is also expected to promptly implement strategies from the 2004 controller workforce plan and directs that the 2009 workforce plan include an update on the agency's progress. Funding under this heading also includes \$15,000,000 for controller training activities including additional contract trainers; for expenses needed to retain experienced controllers and to attract controllers at needed locations; and to accelerate the hiring pace of new controllers. The FAA is directed to provide a report to the House and Senate Committees on Appropriations within 30 days of enactment that describes the agency's use of the controller training funds.

Contract tower program.—The bill includes \$110,000,000 for the contract tower base program and \$9,000,000 for the contract tower cost-sharing program. In addition, the FAA is permitted to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the cost share towers program, but only after all base line tower obligations have been fulfilled.

Technical staffing requirements.—The FAA is directed to carefully monitor the size and capability of its technical workforce and to maintain agreed upon staffing levels. The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations as to the agency's technical staffing levels.

RNAV/RNP procedures.—Within the amounts provided for the air traffic organization, \$39,200,000 is included for RNAV/RNP procedures. FAA is directed to include a dedicated section for the FAA's performance based navigation program in future budget submissions and to provide semi-annual reports to the House and Senate Committees

on Appropriations on the number of procedures developed, average cost and steps taken to streamline the procedure approval process.

TRACON security staffing.—The FAA is directed to evaluate the security staffing needs at the TRACON in Seattle, Washington and then allocate the appropriate level of staff to address any shortfall.

Aviation safety (AVS).—The bill provides \$1,164,597,000 for aviation safety, which is an increase of \$33,670,000 over the budget request and \$82,995,000 over the fiscal year 2008 enacted level. This amount includes \$16,900,000 to annualize safety personnel in AFS and AIR that are currently on-board. The bill includes no less than \$10,000,000 to increase aviation safety staff of which \$8,000,000 is directed for additional flight standards inspectors and \$2,000,000 is directed for aircraft certification inspectors and related staff.

The Secretary is directed to continue to provide an annual report on aviation safety employment data which delineates inspector losses and gains from the beginning of fiscal year 2009 until March 31, 2009. The report is due to the House and Senate Appropriations Committees by April 10, 2009. In addition, the FAA is expected to include the fully annualized cost of the additional inspectors in the fiscal year 2010 budget. If the FAA chooses not to fund these inspectors, the agency is directed to display changes to the aviation safety base program and how many inspector positions would be affected.

Additionally, the FAA is directed to establish a working group, including safety inspectors, to develop a benchmark to measure how much time inspectors spend in the field and to include that benchmark in the next inspector workforce plan. FAA is directed to provide semi-annual reports to the House and Senate Appropriations Committees on all overdue safety attribute inspections and element performance inspections including a target completion date.

Air transportation oversight system (ATOS).—The Department of Transportation Office of Inspector General (OIG) is directed to submit a report to the House and Senate Commit-

tees on Appropriations within six months of enactment which verifies the ATOS field data that is sent to FAA headquarters; describes the agency's analysis of that data; and, evaluates the effectiveness of FAA's use of the data.

Inspector staffing model.—The FAA is directed to notify the House and Senate Committees on Appropriations if the agency is 30 days delinquent on any of the milestones related to the safety inspector staffing model.

Medallion program.—Within the funds provided for aviation safety, \$2,375,000 is included to continue the Medallion program, a cooperative program to improve rural air safety in Alaska.

Professional aerial application support system.—The recommendation includes \$47,500 for the National Agricultural Aviation Research and Education Foundation's Professional Aerial Application Support System. This program is designed to assist with agricultural pilot safety, operational security and the safe and accurate delivery of crop protection products.

Commercial space transportation.—The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations on commercial airspace test flight activities.

Workforce diversity plans for controllers and safety staff.—The FAA is directed to provide a further update to the workforce diversity plan required in fiscal year 2008 in order to measure the progress and specific efforts that the agency has made to eliminate barriers for underrepresented populations in the FAA's controller and safety workforce. The submittal date for the plan is April 1, 2009.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The bill includes \$2,742,095,000 for FAA facilities and equipment which is \$18,585,000 above the budget request and \$228,484,000 above the fiscal year 2008 enacted level. Of the total amount available, \$460,500,000 is available until September 30, 2009, and \$2,281,595,000 is available until September 30, 2010. The bill includes language directing FAA to transmit a detailed five-year capital

investment plan to Congress with its fiscal year 2010 budget submission. Additionally, the bill requires FAA to conduct an analysis of the current air traffic control system

compared to the planned NextGen system and to transmit with the fiscal year 2010 budget a list of capabilities to be achieved by 2017 and their estimated costs.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account.

Section 114 prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey.

Section 115 prohibits funds from being used to promulgate regulations that allow the Secretary of Transportation to auction air slots, impose congestion pricing at an airport, exact an air slot from a carrier, charge a fee for the right to use a specified portion of airspace, or establish policies that would encourage an airport to undertake such actions.

Section 116 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation to use public space at the airport for the purpose of conducting outreach on air passenger rights.

Section 117 requires the FAA Administrator to respond to the Committees on Appropriations and Commerce, Science and Transportation in writing within 60 days of the publication of any Government Accountability Office report on airspace redesign over the New York, New Jersey and Philadelphia region on the actions the agency intends to take in order to address any concerns or recommendations contained in the GAO report.

Section 118 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c).

The bill includes a liquidation of contract authorization and a limitation on obligations of \$234,000,000 for the operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,500,000 is to remain available for obligation until September 30, 2011. The bill rescinds \$4,839,259 in unobligated balances from motor carrier safety operations. The bill provides funding in the following manner:

Program	Funding
Operating expenses	\$177,500,000
Research and technology	8,500,000
Information management	34,445,000
Regulatory development	9,680,000
Outreach and education	2,875,000
Commercial motor vehicle operators grants	1,000,000

The bill prohibits any funds relating to outreach and education from being transferred to another agency. Of the funds provided for information management, at least \$12,849,000 is directed solely for the COMPASS initiative. Funds provided for regulatory development shall only be used for the development of regulations, standards, and guidance.

High risk carriers.—FMCSA is directed to spend an additional \$500,000 to increase the number of compliance reviews on high risk carriers. The agency should achieve this increase by reducing other low priority expenses within its operations budget outside of the areas of inspection and enforcement. The bill directs FMCSA to provide semi-annual reports to Congress on the agency's progress in meeting the high risk carrier requirements contained in SAFETEA-LU. The reports are due March 30, 2009, and September 30, 2009.

Americans with Disabilities Act compliance.—In July 2008, the Over-the-Road Bus Transportation Accessibility Act of 2007 was signed into law. This law makes clear FMCSA's responsibility to enforce ADA regulations related to motorcoach accessibility. Under this law, FMCSA must deny or revoke operating authority to any over-the-road bus operator violating DOT's ADA requirements.

FMCSA is directed to include information in its fiscal year 2010 budget submissions on how it has used this authority, providing detailed information on the number of enforcement actions and operation authority revocations or denials that have resulted from this law.

Reports.—In past years FMCSA has submitted reports to the Committees on Appropriations woefully past the report's deadline. To underscore the importance of these reports, if the pattern of lateness continues in fiscal year 2009 the Committees will consider including language reducing the amount of the agency's appropriation by \$100,000 for each day any report is late. Any reduction levied will be taken from the Office of the Administrator.

FMCSA is directed to submit a letter report to the Committees on Appropriations by April 1, 2009, providing a detailed timeline for the implementation of a national database of positive and refusal-to-test drug and alcohol test results.

Research and technology funding report.—FMCSA is directed to submit a report to the Committees on Appropriations by May 1, 2009, that outlines how all of its research and technology funding will be utilized. It is expected that the FMCSA research and technology program will focus on bringing low cost, effective safety technologies to commercial motor vehicle carriers, such as braking and lane departure warning systems.

Spend plan.—FMCSA is directed to submit a spend plan to the Committees on Appropriations which details the timeline, cost, and capability of CSA 2010 through full deployment within 90 days of enactment of this act.

COMPASS funding.—FMCSA is directed to submit a report to the Committees on Appropriations by April 15, 2009, that describes in detail how COMPASS funding will be utilized in fiscal year 2009 and what functions this funding will provide to the agency and its users.
